Commission of Inquiry

Into the Wrongful

Conviction of David Milgaard

before

THE HONOURABLE MR. JUSTICE
EDWARD P. MacCALLUM

# Transcript of Proceedings

and

Testimony before the Commission sitting at the

Delta Bessborough Hotel at

Saskatoon, Saskatchewan

On Friday, February 10th, 2006

Volume 122

Inquiry Proceedings

## Commission Staff:

Mr. Douglas C. Hodson, Commission Counsel

Ms. Candace D. Congram, Executive Director

Ms. Jodie Kendry Document Assistant

Ms. Cheryl Ellerman, Assistant Document Manager

## Support Staff:

Ms. Irene Beitel, Clerk to the Commission

Ms. Karen Hinz, CSR, and Official Q.B. Court Reporters

Mr. Don Meyer, RPR, CSR,

Mr. Hugh Esson, Security Officer

Mr. Tony Fitzgerald, Inland Audio Technician

## Appearances:

Mr. Hersh Wolch, Q.C., for Mr. David Milgaard

Ms. Lana Krogan, for Government of Saskatchewan

Ms. Catherine Knox, for Mr. T.D.R. (Bobs) Caldwell

Mr. Jay Watson, Esq., for Mr. Serge Kujawa

Mr. Pat Loran, Esq., for the Saskatoon Police Service

Mr. Aaron Fox, Q.C., for Mr. Eddie Karst

Ms. Rochelle Wempe, for the RCMP

Ms. Jennifer Cox, for Minister of Justice

(Canada), The Hon. Vic Toews

When we adjourned yesterday we were talking about the factors that went into your advice to Mr.

Milgaard about whether or not he should testify, and I just want to cover a few more areas there.

As well, I think when we went through your interview, when we went through your interview with Mr. Milgaard and went through what he told you, I think as well you provided some commentary about how some of that information might be prejudicial to him if he were to testify, but I'm wondering if we can just try and capture that.

Start off with first of all, and you've already talked about this, but your assessment of how David Milgaard would handle questions not only from you but from the prosecutor, and apart from the substance of the answers -- and I think you've already told us that

25

Α

on a number of them his answer would be "I don't know" in trying to explain why he did things -but apart from the substance, what was your assessment of how -- the manner in which you thought he would answer some tough questions, that -- how the jury might view that, and did you do a mock cross-examination of him to try and get a sense of how he might be perceived by the jury? Well I did not engage in a robust cross-examination of him, and my questioning was conducted with what I will call civility, because I think that fairly describes it. But I did realize, from the questions I asked and indicated that would be asked of him, that he would come across as having difficulty in answering the questions, and of course answers like "I don't know" or "I don't remember", while perfectly truthful, can convey a different impression, and I thought that when taxed in a robust cross-examination it could well portray that type of situation. Once again -- and I hesitate to use the term -- but from my experience at the time I did have gut reactions to things -- and I think probably most counsel would either use that word or different words to convey the same meaning --

1		but that, essentially, is the advantage that I had
2		at that stage, in trying to make the assessment
3		with him. And of course, as I've already told
4		you, I discussed the options that were available
5		to him, and then the rest followed from that. I
6		don't know whether that answers your question in
7		sufficient detail or not,
8	Q	Yes it does.
9	А	but I don't want to be too long-winded.
10	Q	No, and I think it raises an interesting point,
11		that you have a client who is innocent, telling
12		you he is innocent, and you are proceeding on that
13		basis, and that you have no doubt would tell the
14		truth when he testified, I think you've told us
15		that; correct?
16	A	Yes.
17	Q	You had no reason
18	А	Well the best illustration of that is, you know,
19		the purpose in stopping the lady, you know, what
20		did he have in mind, and he would have said "well
21		I must say that I looked her over with a view to
22		robbing her or snatching her purse", but I've gone
23		through that with you.
24	Q	So again, just back on the point, that someone who

tells you he is innocent, and is presented to tell

Α

the truth and you believe he will tell the truth, but that at the end of the day his evidence, I think you are telling us, would end up hurting his own case and helping the Crown case by him telling the truth?

Yes. Yes. I always thought that, as a counsel, one had a duty to explain the options to a client, but more than explaining the options, as I said yesterday, I thought a person in that situation was entitled to my frank assessment of the situation. And that, of course, was based on my knowledge of the components of the case and, also, my knowledge of the type of questions that would be put to him, and that was largely based on my general experience as well as my experience in that particular setting.

If we can then move on as well, and I just want to touch on each of these in this area, we've talked about them already, but you also told us that you felt there was a risk that, if David Milgaard testified, that he might, despite your efforts and his efforts, but that he might put his character in issue through inadvertently bringing his character into issue by answering a question with words like "well, I'm not the type of person who

1		would do that". I think you described, and I
2		think you told us that that was a risk, that if
3		that were to happen it would open up an area where
4		you felt damaging evidence would then be presented
5		through your own witness, Mr. Milgaard, but
6		possibly opening up an area for the Crown to call
7		some other evidence; is that fair?
8	A	Yes. I think I've generally covered that earlier,
9		but if you'd like me to go into it
10	Q	No, I think unless you would want to add anything
11		to that
12	A	No, I don't think I can usefully add anything to
13		what I told you earlier in these proceedings.
14	Q	And in addition to what you knew I think you told
15		us, based on what you knew from your interview
16		with Mr. Milgaard, that in and of itself caused
17		you pause? I think, in other words, that you felt
18		that, if character were an issue, it would be
19		damaging; is that fair?
20	А	Yes. And I thought that this can be opened up by
21		answers to questions on cross-examination, and
22	Q	Now we know in this Inquiry what Mr. Caldwell had
23		in this area by way of information, and I think
24		I've shown some of it to you, and I think it's
25		fair to say that he had information about David's
	İ	

1		background that you didn't have. And would that
2		be something, at the time, that you might have
3		anticipated or thought about, knowing that Dr.
4		McDonald had interviewed Mr. Milgaard, that Mr.
5		Caldwell might well have his own damaging
6		information that you are not aware of?
7	А	Yes. And David had, I think, been quite candid
8		with me about his difficulties, and that includes
9		any conflict with the law.
10	Q	If we can then turn to the drug use, and you've
11		talked about that a bit, and I think what you have
12		told us, that it was a two-edged sword, on the one
13		hand if you could use it to discredit Wilson,
14		John, and Cadrain, that would be fine, but the
15		risk was that the jury might, knowing that David
16		was in the same group as these people, might, even
17		though there was no evidence of alcohol and drug
18		use on the morning of the murder, might somehow
19		associate the drug use with him?
20	A	Yes.
21	Q	And I take it, if you called Mr. Milgaard to
22		testify, that you would expect Mr. Caldwell to
23		spend some time with his drug use, much as you did
24		with the Crown witnesses?
25	Α	I think that that's a fair assessment on your $\P$

part.

- And I take it there'd be a risk, then, with the jury drawing an adverse inference about the type of person Mr. Milgaard was, and I think you made a comment earlier about trying to keep out some of this extraneous evidence, because the real issue was whether or not he had committed the crime as opposed to what type of person he was?
- A That's correct.
- I now want to go through, and I think you told us when we went through this that there would be -- or when you gave advice to Mr. Milgaard, you told him that he would end up confirming some facts that were incriminating that had been led in the Crown's case; is that correct?
- A Yes.
- And I just want to go through those. I think
  there's -- I've got nine points here. The first
  one would be the discussion about travelling from
  Regina to Saskatoon, the discussion in the car
  between Ron and David about breaking and entering
  and robbing, or break and enters and purse
  snatchings to finance the trip, and I think you've
  told us you don't remember David telling you that?

  A No. And I would have taken the position that, I'm

		7 age 2 1000
1		sure, that this was off limits.
2	Q	Okay. But putting aside, putting that aside for
3		the moment, in fact I think you were able to keep
4		that out; is that
5	A	That's right.
6	Q	So assuming
7	A	And that's why I made the comment "off limits",
8		because my argument would have been that since it
9		has been ruled inadmissible as part of the Crown's
10		case, I would have argued that it ought not to be
11		a subject of cross-examination.
12	Q	If Mr. Milgaard had testified
13	A	But, you know, there was no guarantee that it
14		might be ruled completely inadmissible, there is
15		always the possibility that it would have been
16		permitted on the issue of credibility, but I'm
17		just alerting you to the fact that I was alive to
18		this
19	Q	I think yeah.
20	А	consideration.
21	Q	And I think you may have told us that, if you
22		called David, you would lead the evidence about
23		what he thought about the robbing or the purse
24		snatching when they approached the woman?
25	А	Yes.
	ii	

1	Q	Is it possible that that evidence might have
2		opened up discussions earlier in the trip about
3		their intentions?
4	A	I think that it might well have.
5	Q	So just on this point, the fact that and again,
6		I appreciate you don't recall David confirming or
7		denying this, but if in fact he had in other
8		words that there was no dispute that he and Ron
9		Wilson discussed break and enters and purse
10		snatchings, if Mr. Milgaard was called and if the
11		evidence was otherwise admissible, I take it that
12		he may end up confirming what Mr. Wilson had to
13		say about the subject
14	A	Well
15	Q	and making what was otherwise inadmissible
16		admissible?
17	А	Well I'm not sure that, I can't say that he would
18		have gone that far without the benefit of my notes
19		now, but the mere asking of the question creates
20		an atmosphere that is not helpful.
21	Q	Okay. If we could now turn to the issue of the
22		knife, I think you've told us that Mr. Milgaard
23		would confirm that he had a knife, although a
24		different knife than the one identified by Wilson
25		and John,
		4

		. ago <u> </u>
1	A	Yes.
2	Q	and that, also, he couldn't find the knife, in
3		other words he couldn't produce the one that he
4		had in the car?
5	A	No, he didn't know what had happened to it.
6	Q	And so I guess in some respects, although he would
7		say it was a different knife, he would confirm for
8		the jury that he had a knife and perhaps lend some
9		credibility to Wilson and John when they say they
10		observed a knife?
11	A	Yes, I am sure this would have been an area for
12		robust cross-examination, if I may use that term
13		again.
14	Q	And then, third, he would confirm that he and the
15		people in his car stopped a woman for directions
16		in an area in the vicinity and I use that term
17		and I'll come back to that in the vicinity of
18		where Gail Miller's body was found. And I think
19		what you have told us is that he couldn't deny
20		that it was in that area, and that it was
21		generally on the west side between 20th and 22nd
22		Street, and he wouldn't be able to say it wasn't
23		there; is that fair?
24	A	Yes. We couldn't, we just couldn't pinpoint the
25		avenues.
	Ü	

1	Q	And if Mr. Caldwell had taken out a map and, much
2		as you did, and asked him to point out where they
3		went, that he went through 20th to 22nd Street, up
4		and down the avenues, would you have a concern
5		that the jury might conclude that he was in the
6		vicinity of Avenue N and Avenue O?
7	A	Well that, of course, was part of my concern, and
8		I knew that questions would be directed to that
9		area.
10	Q	And then, number 4, he would confirm that their
11		vehicle got stuck after and, again, whether it
12		was blocks or shortly after but after they met
13		the lady for directions, he would confirm that
14		part of Wilson and John's evidence, and that he
15		and that that location would be, again, in the
16		vicinity of where Gail Miller's body was found?
17		In other words he couldn't deny that it was there,
18		he couldn't say it was, but again between 20th and
19		22nd Street and on one of the avenues; is that
20		fair?
21	А	Yes. "Vicinity", I used it in a very general
22		sense.
23	Q	Yeah. And that he would dispute, however, Mr.
24		Wilson's evidence that he was gone for 10 or 15
25		minutes and he would say "for a short while", so $\P$

1		he would confirm that he left the car but he would
2		dispute for how long; correct?
3	Α	That's right.
4	Q	Number
5	Α	His evidence would have been that it was a very
6		short time.
7	Q	Number 5, he would confirm the evidence of Wilson
8		that two men came along and helped pushed out
9		their car; is that correct?
10	Α	Yes.
11	Q	6, he would confirm that he would that he did
12		in fact drive Wilson's car around the block and
13		alley at the Cadrain house on a couple of
14		occasions, and I think you've told us his answer,
15		his explanation would be "I like to drive"?
16	Α	That's correct.
17	Q	And 7, again there might have been an issue about
18		admissibility of this, but in the event that it
19		became admissible for some reason, that he was
20		driving fast between Saskatoon and Calgary?
21	А	Yes. I mean his explanation was, you know, he
22		liked to drive fast.
23	Q	And then eight, that he would confirm the evidence
24		of Wilson and John that he in fact did throw the
25		compact out of the car and his answer would be I
		Meyer CompuCourt Reporting ————————————————————————————————————

1 don't know where it came from and I don't know why 2 I threw it out? 3 Α That's right. 4 And then lastly on the motel reenactment, he would 0 5 say, he would confirm that he was there with those people, that he was stoned and that he couldn't 6 deny doing what was attributed to him, but that if 8 he did those things, he would say he would have 9 been joking; is that correct? 10 Α Yes. 11 So again on those points, and again there may be 12 some others, but I think that was what you ended 13 up telling us earlier on when we went through the 14 interview, I think you've told us your concern 15 there is that he would end up, through his own 16 evidence, confirming a significant -- significant 17 facts that were put forward as the Crown's case. 18 I think you told us that some of them, or perhaps 19 even all of them, might be viewed as suspicious by 20 the jury; is that fair? 21 Yes, and I would, I think I used the term that it Α 22 would tend to perhaps strengthen the Crown's case, 23 that was my assessment, that all of this, having 24 regard to the questioning that would take place in 25 cross-examination would probably tend to

1		strengthen the Crown's case by reason of some of
2		the evidence being confirmatory of significant
3		matters that had been advanced by the Crown.
4	Q	And just on that point, given that your tact with
5		Wilson, John, Melnyk and Lapchuk and even Cadrain
6		was to say that they were unsavoury characters,
7		therefore, jury, view their evidence with some
8		doubt, would the fact that your own client, if he
9		testified and confirmed some of that, would that
10		undermine, to some extent, your ability to say
11		these people shouldn't be believed?
12	А	I think so.
13	Q	We talked about the police statements, you brought
14		that up yesterday, that the first statement David
15		gave the police, it's 305273, and I think you
16		referred yesterday to your concerns about some of
17		the answers that he gave in that statement:
18		"Q Were you in Saskatoon this year?
19		A Maybe.
20		Q When would you have been in Saskatoon?
21		A I'm not sure."
22		And I think you told us that his evidence would
23		be that he knew he was in Saskatoon and he knew
24		when he was there; is that correct?
25	A	Yes, I already I mentioned that to you I think

1 earlier.

- And just generally on the statement, I think you told us you had concerns that he would be cross-examined, I think, in a robust manner about not only what he said to the police, but how he said it and also what he didn't tell the police; is that fair?
- A That's correct.
- And is it fair to say, we went through the statement in detail, that you had concerns that his initial statement to the police of March 3rd, 1969 might end up being damaging evidence against him because of what he said, how he said it and what he didn't say?
- A That's correct.
- Now, next I want to turn to the, just the last point, and that would be if Mr. Milgaard testified what evidence he would add to the mix; in other words, what evidence would he give that was not presently before the jury that might be damaging, and the two points I think that you brought up were, number one, that David Milgaard told you when he approached the woman that he had thoughts of robbing the woman or snatching her purse, or words to that effect, when he approached her.

		r ago 24011
1		Now, that evidence did not come out at trial;
2		correct?
3	A	That's correct.
4	Q	And if Mr. Milgaard would have been called, I
5		think you told us you would lead that because
6		undoubtedly it would come out in Mr. Caldwell's
7		cross-examination and you would want to take the
8		sting out of it?
9	А	Yes.
10	Q	And so again, and I think you've told us that that
11		evidence would not be helpful to Mr. Milgaard's
12		case?
13	А	No, and I thought that that would be explored or
14		expanded upon in the context of what had been said
15		about lack of money and so forth, but here again,
16		I don't want to repeat what I've already told you.
17	Q	Sure. And the other point I think you told us,
18		and again there may be others that fall into this
19		category of evidence that he would add to the mix,
20		were the pants that he changed out of that morning
21		that allegedly had the blood on them and the fact
22		that he was not able to find them and the fact
23		that he couldn't find his knife, for example, that
24		that would be something that would be before the
25		jury that Mr. Caldwell would be allowed to

1		cross-examine him and say, well, you know, why
2		don't you have the pants, you know, do you have
3		your other clothes, where are these pants and the
4		knife, etcetera, and may be an inference that he
5		had them and wasn't providing them; is that fair?
6	А	Yes, that's a fair assessment, and I'm sure was a
7		factor that I considered.
8	Q	And I suppose we then weigh, or you did, I think,
9		told us you then weighed that, the risks with the
10		benefits, and I take it the benefits of having him
11		testify would be that the jury would hear him get
12		on the stand and say I did not kill Gail Miller?
13	A	That's correct.
14	Q	Which would be an important thing to have your
15		client say?
16	А	Oh, yes. That's why these decisions are never
17		easy and this one wasn't easy, and that is, wasn't
18		easy for him, and yet I felt that I couldn't shirk
19		my duty or abdicate my duty to discuss it with him
20		and give him advice on the matter for his
21		consideration.
22	Q	And I think you told us earlier that based on
23		these factors, you had sort of come to the
24		conclusion, weighing everything that your advice
25		was, that he should not testify, that he would

		•
1		damage his case?
2	А	Yes, and he would strengthen the Crown case in
3		some material respects, so I guess we're talking
4		about the same thing really.
5	Q	And at that time, Mr. Tallis, I think you've told
6		us you had been through a number of trials, jury
7		trials before, and presumably would have had to
8		face this same decision in those cases?
9	А	Yes. I can't tell you the number of times I faced
10		it, but I know that I had had to face it quite a
11		few times, both before and after this.
12	Q	I understand at around this time, or actually
13		maybe even a year or two prior, the Supreme Court
14		heard a reference regarding the Steven Truscott
15		case; is that correct?
16	А	Yes.
17	Q	And had you looked into that case at all and did
18		that in any way influence your thinking with
19		respect to this matter?
20	А	I had taken more than a passing interest in the
21		Truscott case long before I was ever briefed on
22		this and I recall that I read the book by Madam
23		LeBourdais I believe her name is, I may be
24		mispronouncing it, but I'm not doing it
25		disrespectfully, I read that book, and then I also
	Ĭ	

read the decision of the Supreme Court of Canada on the reference, and from reading that particular report and noticing that Mr. Truscott had been called to give evidence before the Court, I appreciated what can happen with respect to a witness, and particularly a relatively youthful witness. I say that because without revisiting the actual case and going through the details, I recall that I believe a majority of the judges of the Supreme Court of Canada disbelieved him on the basis of his testimony and pointed out a number of matters which, in my view, taken individually, didn't amount to that much, but when looked at globally or collectively led to the finding of disbelief.

Now, of course each case is different, but I just mentioned that to you when you were going through this matter with me because I was very aware, with respect to matters of this kind, and I have no doubt, on reflection, that I couldn't help but notice that his lead counsel on that inquiry, or reference, was one of the giants of the Canadian criminal bar, Mr. Arthur Martin, who I didn't know personally at that time, but later got to know.

Q	Okay. Is there anything else, before I move on,
	Mr. Tallis, that you wish to add about the
	decision and the advice you gave to Mr. Milgaard
	regarding testifying?
А	I think that I've covered pretty well everything
	in my discussions with you.
Q	If we could then go onto
А	There's just one thing I would add.
Q	Yes.
А	And this certainly wasn't a factor in any real
	sense of the word, but you do lose the last word
	to the jury if you call evidence, but that in no
	way really affects an assessment of this nature
	where you have a person that can, in good
	conscious, give evidence, but I just mention that
	because that is a factor that I knew some counsel
	placed great stock in it. I viewed it as sort of
	a very subsidiary consideration in this case.
Q	Okay. If we could call up 153470, please, and
	this is a document that we have not looked at yet
	and this is your summation at the preliminary
	hearing, your argument that you made at the
	conclusion of the evidence going in before
	Magistrate Cumming to have the case dismissed, and
	I just want to go through parts of it.
	A Q A Q A

1		If we can go to the next page,
2		and I take it, Mr. Tallis, that the points you
3		would have been making here at the preliminary
4		hearing would be similar arguments that you would
5		then also be making at trial?
6	A	Yes. I haven't viewed it in that context, but I'm
7		sure you are quite correct. I think I glanced
8		over this, but never really read it, if you know
9		what I mean.
10	Q	Sure. We'll maybe just go through it, and number
11		one
12	A	I don't recall preparing this submission, but just
13		looking at it, it's obvious to me that it's
14		something that I had prepared in advance; in other
15		words, it wasn't an off-the-cuff submission at the
16		end of the preliminary hearing because most
17		preliminary hearings don't involve that much in
18		the way of submissions where there is some direct
19		evidence.
20	Q	In fairness, I think this may be a transcript of
21		your verbal submissions.
22	А	I see, but I must have
23	Q	You may well have had a written submission as
24		well.
25	A	Yeah, I must have had something written out.

		. ago <u> </u>
1	Q	Okay. If we can just
2	А	Maybe even typed out.
3	Q	So here, number one that you raise is the time
4		element:
5		"I ask you to consider that in weighing
6		that matter."
7		And then you go on about the time, 20 to 7, and I
8		think essentially saying again, and you've
9		alluded to this earlier, that this offence could
10		not have been committed by Mr. Milgaard during
11		the time frame that it was alleged to have or
12		that it could have happened; is that fair?
13	A	Yes, I think that's a fair reading of.
14	Q	Number two, you say that you have Wilson's
15		evidence that his car was never in the east-west
16		alley or the one running north and south, and then
17		Diewold's evidence that the car was in there for
18		10 minutes at the relevant time, and I think what
19		you are saying there is that that couldn't have
20		been Ron Wilson's car because he was driving it
21		and he testified it was never in there, and the
22		Crown's case was that that car must have been,
23		that the perpetrator of the crime must have been,
24		or likely was in that car; is that correct?
25	А	Yes.
		•

And then again you go back to the time element about the girl obviously had been handled quite a lot, and then I think again you've touched on that.

24

25

And then to the next page, you raised the secretor issue at the preliminary hearing as a basis to have the case dismissed, and you say:

"The seminal fluid that was tested by Mr. Painter indicated that person in the initial test was group A, but a secretor, as distinct from a non-secretor. The Crown suggests the possibility that some of the accused's blood is in the seminal fluid. This possibility is put forward to diminish a piece of evidence, a piece of scientific evidence which initially would completely eliminate David. The Crown can't be heard to say there's a probability it was his blood in the seminal fluid. The doctor suggests it could be from the onset of menstrual flow, or from a vaginal irritation, or possibly from the accused, if he is

bleeding himself internally, or

		<u> </u>
2		externally."
3		So at the preliminary hearing is it fair to say
4		that you were trying to rely on the frozen semen
5		and the secretor issue argument to say that David
6		was eliminated as a suspect and that the case
7		ought to be dismissed at the preliminary hearing?
8	A	Yes.
9	Q	On that basis?
10	А	Yes.
11	Q	Next if we can go to 031255 there's nothing
12		further on that document 031255. This is the
13		affidavit that accompanied your address to the
14		jury and it appears that it was January, the week
15		of January 13, 1992 this was done. It's my
16		understanding that the typed version of your
17		address to the jury was typed up in January of
18		1992 from some shorthand notes and it was done for
19		the purposes of the Supreme Court reference and
20		your giving evidence there; is that correct?
21	A	Yes, it was certainly prepared for the Supreme
22		Court reference. I didn't take it as being
23		prepared for the purpose of my evidence.
24	Q	Okay, sorry. That it was prepared for those
25		proceedings?
		Mayor Communication

1	А	Yes. I must say, one of the court reporters
2		phoned me to see if I had a copy of my jury
3		address, but of course I explained that I didn't
4		have one, and secondly, even though I know that I
5		had it drafted out, I tried, and I think I usually
6		succeeded, in not reading a jury address, you have
7		the points there and try to deal with it in a much
8		more extemporaneous fashion looking directly at
9		the jury rather than reading it with your head
10		down on the lectern.
11	Q	If we could go to 031265. I just want to go
12		through parts of this, Mr. Tallis, we've already
13		referred to some parts, and the entire document is
14		in as an exhibit. Just down at the bottom, this
15		is page 7 of your address, you talk about the time
16		element, and I take it, Mr. Tallis, that that
17		would have been if I were to ask you what were
18		some of your main arguments before the jury as to
19		what you were putting forward to persuade them
20		that David ought to be acquitted, would the time
21		element be one of them?
22	A	Yes, it was, and, you know, that was focused on
23		throughout the trial as well.
24	Q	And then the next page, and I appreciate that
25		there's some breaks in the transcript, but you

start off:

"First of all --"

And this is on the time element,

"-- you have the deceased located in one site and you have a key and comb located ... you have purse and contents. You have a sweater and boot. You have a cosmetic bag, or you could call them contents of a purse.

Now, I want to refer to that because if my learned friend is correct in the theory that he has propounded as to how these things got in these various places."

And just pause there. And we've already heard this in evidence, that various items belonging to Gail Miller were found in and around the alley, the sweater was buried, a boot was buried, the purse was in a garbage can and some other things were found in and around that. You say:

"You have, in my submission, a . . time element and of course you have this business of allegedly taking the boot, taking the sweater and burying them in a particular spot, a somewhat pointless

1		thing in my own opinion.
2		If the motive is why
3		worry about a boot being buried where it
4		was, why worry about a sweater being
5		buried where it was, but these things,
6		in my submission, involve a great deal
7		of time, much more time than my learned
8		friend suggested to you.
9		And there is nothing to
10		indicate here that this was
11		or buried or anything like that to the
12		site. There is no zigzag pattern of
13		foot marks or anything like that leading
14		up to the places, and this is something
15		that we ask you to analyze very
16		carefully"
17		So pause there. That would be a summary then of
18		your, of that point. Can you elaborate on
19		anything there, Mr. Tallis?
20	A	No. I think that indicates that it was certainly
21		a focus on the time element, and lack of time I
22		guess I should say in which to commit the
23		homicide.
24	Q	And then here's where you deal with the cosmetic
25		bag, or the compact.
		<b>9</b>

		Page 24623 ————————————————————————————————————
1	A	Yes.
2	Q	And you say:
3		"Now, my learned friend in his very able
4		way, said I anticipate counsel for
5		the will say something about the
6		bag."
7		Let me just pause there. At that time Mr.
8		Caldwell would have known that you didn't
9		cross-examine any of the witnesses about
10	А	Yes.
11	Q	the cosmetic bag and may have sensed that you
12		had a problem in how you approached that; is that
13		fair?
14	A	I don't know what was going on in his mind, I just
15		don't. I may have sensed something at that time,
16		but
17	Q	Anyway, you say:
18		"Now, members of the jury, I think you
19		would be surprised if I did not. And in
20		that connection, I am not going to
21		bother opening the exhibits, you can do
22		this. But I do suggest to you that you
23		take this little cosmetic bag or
24		container and examine what is in there."
25		And this is Gail Miller's, one of the exhibits.
		Mayor CompuCount Reporting

1 "You won't find just one lipstick or two 2 lipsticks, the duplication which my 3 learned friend suggested. You will find 4 several. As I say, I am not going to 5 open it all up and wave them in front of And then in addition to that you 6 will find another little container, 8 plastic with a sort of . . . on the back 9 of it and there is a form of the 10 cosmetic here in this area, and perhaps 11 my friend was out of order in suggesting 12 that you defer to the female member of 13 your jury on matters of this kind. 14 gather throughout the course of the 15 trial that some of the male participants 16 here were as not as informed as they 17 might have been on matters of this kind. 18 But ... I invite you to consider that 19 very carefully, and also consider the 20 question of the purse, the contents of 21 the purse, and then ask yourselves, when 22 you examine that, bearing in mind the 23 alleged dimensions of this other 24 so-called compact is it reasonable, is 25 it probable that there was in fact

1 another compact or cosmetic bag as is 2 alleged in this particular case?" 3 And so would that be a fair summary then of your approach to the evidence that David Milgaard 4 5 threw a cosmetic bag or compact out of the car? Α Yes, and it essentially too was a response to the 6 way Mr. Caldwell I think had gone about it. 8 0 If we can go to the next page, and again here's 9 where you talk about the condition of the body and 10 the clothing and there are -- I think I can just 11 go down to the -- here at the start involves --12 no, go back to where you were, please, and you 13 say: 14 "A most unique situation, and I never 15 16 like this was found. But ... look at 17

18

19

20

21

22

23

24

25

recall ... in a situation, and I never recall ... in a situation where anything like this was found. But ... look at those photographs, consider the position of the clothes, the clothes themselves ... that it points unalterably to the fact that someone got the coat off the that girl ... got the coat off, got the dress down off the arms and after this ... then the stabbing must have taken place and the ... the stabbing in the back must have been, in my submission,

have taken place after the coat had been put back on, and this is why I suggest to you it is such a unique situation."

And then you talk about the slash marks, and then over to the next page, then carry on:

"Now you may say, well, these things were ... larger, and you may well say that to yourself and you may be saying that to me now, silently, but I say this to you, because once again we must go back to the time element ... among other things, and I ask you to bear them in mind because these are matters which you, as men and women of the world can consider and apply your common sense to. They are things that are there. And there are other factors which I suggest are important in connection with the time element."

Then you go on to talk about the boot being a distance from the body of significance. So again this would be back to the point that -- and you've touched on this a bit earlier, that whoever killed Gail Miller would have had to take her coat off, take her dress down, have her coat

1		back on, raped her presumably, somewhere in there
2		put the coat back on and then stab her and then
3		grab the sweater and the boot, bury it in the
4		snow, put the purse in the garbage can, is that
5		fair, and you are trying to say compare that with
6		the time that David Milgaard would have been away
7		from the vehicle?
8	Α	That's correct, raising the impossibility of it
9		having been committed as alleged or, at the very
10		least, the improbability of it having been done in
11		the manner alleged.
12	Q	Then the next page, again you just make reference
13		to the angle of the stab marks, that they are
14		consistent with having been inflicted by a
15		right-handed person, and evidence before the Court
16		was David was left-handed; is that correct?
17	А	Yes.
18	Q	And again on the next page, this is again you are
19		referring to some of Dr. Emson's evidence:
20		"I don't think he could, on the
21		evidence, it is unreasonable to suggest
22		that such a dreadful thing could happen
23		in such a short period of time."
24		Again, back to the time element.
25		Then down at the bottom of the

1 page you talk about the weather I think and the 2 condition of the body and the theory that the 3 attack took place where the body was found and 4 you say: 5 "... this may cause you a great deal of concern in deciding whether or not you 6 can find beyond a reasonable doubt that 8 this sexual attack started and was 9 finished there." 10 And again, if it had not started and finished there, that would eliminate David Milgaard as a 11 12 perpetrator based on the evidence against him; is 13 that fair? 14 Α Yes. 15 And then the next page, once again you mention 0 back to the time factor which is of the utmost 16 17 importance, and then to the next page, you spend some time here: 18 19 "... let's deal with the conduct of 20 David on the morning in question." 21 And then I think this is based upon the evidence 22 that was adduced from the Danchuks and the 23 Rasmussens and the service station people; is 24 that correct?

25

Α

Yes.

1	Q	And you call them "average, everyday citizens,"
2		you don't say that disrespectfully, "who go about
3		their daily work, " and:
4		" these are not the people who really
5		looked for things therefore they don't
6		see them. Now, just ask yourself, is
7		that reasonable?"
8		I think you are referring to Mr. Caldwell's
9		comments?
10	A	Yes.
11	Q	And:
12		"I invite you to consider the
13		observations of Mr. Rasmussen"
14		The type of man, etcetera, and the Danchuks, and
15		I think you end up comparing the Rasmussens and
16		the Danchuks of the world to Wilson, John and
17		Cadrain and Melnyk and Lapchuk and saying believe
18		the Danchuks and Rasmussens over what these other
19		people say; is that fair?
20	Α	Yes. I think that was a fair assessment of the
21		appeal to them.
22	Q	And the next page, I don't think we need to go
23		through it, but again you spend some time about
24		the Danchuks and their observations. And then
25		onto the next page you say, and this is with
		4

respect to the Danchuks:

"Now, first of all I invite you to consider this pretty carefully because I suggest when a stranger comes to your door, comes to your place at 7:30 in the morning, 8:00 in the morning with a group and you have never seen them before, you take a pretty careful look. And if they say they're from out of the city, you perhaps then scrutinize a little more carefully."

And then just at the bottom:

"Well I suggest to you that their appearance at the Danchuks leads to this conclusion, that there is no suggestion that David appears unusual; nothing unusual about his demeanour or about his speech, nothing -- and this is quite important -- nothing unusual about the other two. And Mrs. Danchuk, as I understand it, said that they were dressed like school kids."

What would be your, the reason for bringing up the fact that there was nothing observed unusual about Ron Wilson and Nichol John?

1	Α	Well the this was essentially the observations
2		that the Danchuks had made. I think that that was
3		a fair assessment of their testimony. And David,
4		was acting no differently than the other two,
5		essentially, and so they were collectively kids
6		with nobody standing out like a sore thumb, if I
7		may use that term.
8	Q	Would you be trying to draw an inference that, if
9		Nichol John had just witnessed a murder or if Ron
10		Wilson had just been told that she had witnessed a
11		murder and that she had been hysterical ten
12		minutes earlier, that the Danchuks might have
13		noticed something?
14	A	Well, yes. And, you know, their demeanour was
15		described I think by the Danchuks in the way in
16		which they did and there was nothing untoward that
17		they observed, even though Mr. Danchuk, I think,
18		was somewhat curious as to what they were doing
19		there that hour of the morning,
20	Q	And
21	A	particularly when he found out that they were
22		from out of town.
23	Q	Now we'll go through the next page, and I won't
24		read through it.
25	А	You know, and I mention that because I think it
		Movey CompuCourt Penerting

1 was one of the truck operators, tow truck operators or something, he had made a note of 2 3 their number, number -- licence number. I'm saying, in effect, is that there was nothing 4 5 that aroused the suspicion of Mr. and Mrs. Danchuk. 6 And if we can go to the next page -- and I won't Q 8 read through it -- but there is a number of pages 9 here, Mr. Tallis, where you talk about the 10 Danchuks in particular, with -- and Mr. Rasmussen; 11 would that have been an important part of your 12 defence, then, to the jury, their observations? 13 Α Yes. I thought that their evidence was 14 independent and untainted evidence and I thought 15 they came across that way as witnesses. 16 Q And then again, go to the next page, again talks 17 about Rasmussens and Danchuks. Then to the next 18 You say: page. 19 "There is no suggestion in this 20 particular instance that David was 21 anything but polite and soft-spoken. 22 think Walter Danchuk was close to all 23 three of them, if I recollect the 24 evidence, and as I recall he said he 25 sort of wondered what they were doing.

That is that I invite you to just ask yourselves, put yourselves in Walter's shoes and say, well, maybe I ought to ask what these people are doing here.

Nothing unusual, no scratch marks, no signs of blood, and of course he confirms no indication of the use of alcohol or anything like that."

And then, of course, you go on to the garage people. Then the next page, similar argument about what was observed there. If we can skip

24

25

about what was observed there. If we can skip ahead, I've covered your submissions on Wilson, John, and Cadrain. 031287, please. Again, I don't propose to read through it, but this is your submission here where you tell the jury that, based on I think the evidence from Wilson, that the toque David was wearing was a different colour than the blue toque, therefore it wasn't his. We've covered the secretor issue that -addressed to the jury on that, so I think we've covered -- actually, go to 031305. You again go through what the evidence was from the police officers about David's cooperation with them.

So I take it, Mr. Tallis, that, even though you did not call David Milgaard as a

1 witness, that you attempted to or were able to 2 get evidence out from other witnesses about his 3 conduct that morning and his conduct with the 4 police; is that fair? 5 Α Yes. And that in your address to the jury you would 6 Q highlight that, that even though David didn't 8 testify, here is what others said about his 9 conduct and his cooperation; is that correct? 10 Α Yes. If we could go to 006175, this is the charge to 11 Q 12 the jury. And I think you've told us on a couple 13 of occasions that you would have made submissions 14 to the trial judge during the course of the trial, 15 or near the end, about specific directions or 16 instructions you might be seeking from him? 17 And the practice -- and I, it probably Α Yes. 18 happened that, even before the charge was given, 19 that we were asked to submit any authorities on 20 areas where we wanted -- that we wanted included 21 in the charge. I can't recall it specifically now 22 but, having read over the charge, I think that 23 there were likely some aspects of it where that 24 was done. 25 If we go to 006179. We have been through parts of Q

this, I think with Mr. Caldwell, and there is a part here about the credibility of witnesses, and consider their:

"... age, education and apparent intelligence or lack of it."

And then here, consider the:

"... matters of character, background, the type of life that a person has been leading. His record as a citizen are again matters that you will take into consideration."

## And the next page:

"I will deal a little more extensively with the particular witnesses at a later point during my remarks but it must be obvious to you that the evidence of a so called upright reputable citizen is to be preferred of that of a person who has been leading a dissolute life, a life of crime, or has been acting in such a reprehensible manner that you may consider that his evidence is suspect."

Again, that would bear on the point, I think you had said earlier, about comparing the Danchuks and the Rasmussens of the world to the Melnyk,

1 Wilson, John and Cadrains? 2 This sort of falls under the rubric of an А 3 unsavoury witness or unsavoury character 4 direction, and I'm sure that's one point that, one 5 way or the other, I had asked for a submission on it before the charge was delivered, and I'm sure 6 that I had in my brief some case authorities on that, if not case authorities a text reference. 8 9 If we can go to 006192, please. And in years that 10 followed the completion of the criminal 11 proceedings there was some commentary about Avenue 12 N versus Avenue O and this issue, Mr. Tallis, and 13 here is what the judge says to the jury: 14 "There is of course some speculation as 15 to which route she took on her way in 16 all likelihood to catch a bus. 17 look at the sketch P.1 you will see that 18 she had probably three alternative 19 routes. I think Mr. Caldwell suggested 20 two. His theory was that she came down 21 The house in question, Avenue "N". 22 which was 130 Avenue "O", is situated at the corner of 21st Street and Avenue 23 24 She could have come down Avenue

25

If you

"O", she could have come down Avenue

1 "N", she could have skirted through this 2 alleyway and out at the blind end - the 3 "T" end; it wouldn't have saved her any 4 time, it wouldn't have saved her any 5 distance to go down the alley, as I see According to the evidence she could 6 have picked up a bus on 20th at either 8 "O" or "N". Now, if she was the girl 9 who was walking along the street when 10 the car with Wilson and the accused and 11 John stopped to make an inquiry - if she 12 was the girl if you accept the evidence 13 of John and Wilson that it was on a 14 street, then you would conclude I 15 suggest that it was either Avenue "N" or 16 Avenue "O" that she was walking on. 17 of course there is nothing conclusive to 18 demonstrate that in fact she Gail Miller 19 was the one who ..." 20 was: 21 "... walking down the street." 22 And, again, did you have any difficulty with that direction? 23 24 Well that, of course, was an area that was related 25 in a sense to the time factor, but as far as

1 taking objection to it, there are some beneficial 2 portions in it that I don't think I would have 3 wanted to end up undoing at the time. And what would that be? 4 0 5 Well, particularly the statement to the jury that Α there was: 6 "... nothing conclusive to demonstrate 8 that in fact she Gail Miller was the one 9 who ..." 10 was: "... walking down the street." 11 12 And I think that's the most significant portion 13 14 It -- I'm sorry? Q 15 -- significant portion of it. Α 16 It was suggested by some later in, reviewing this Q 17 matter, and in particular counsel on behalf of 18 David Milgaard, later counsel, that the evidence 19 either was clear or should have been clear that 20 she walked down Avenue O, and would have walked 21 down Avenue O, therefore the Crown's case about 22 where they got stuck and where she got stopped is 23 all wrong because it couldn't have been on N 24 because she walked down Avenue O. And then -- I'm 25 over-simplifying it but I think are you aware, Mr.

1		Tallis, of that contention later, that the
2		significance of Avenue O versus Avenue N?
3	A	Well, I'm just trying to reflect back. I don't
4		think this was a situation where the judge would
5		have changed his direction on it.
6	Q	Yeah. And putting aside the judge's direction for
7		a moment,
8	А	Yeah.
9	Q	and I think you've touched on some of this, did
10		you view there to be or what significance did
11		you place on the fact that Gail Miller lived on
12		Avenue 0, that the bus stop that she I think
13		arguably normally went to was on 20th and 0, it
14		was 40 below, and yet the Crown's theory seemed to
15		place her on Avenue N, or perhaps in the alleyway,
16		as opposed to Avenue O?
17	A	Well I noticed, from my original or early memo, I
18		grasped that the most likely route would be down
19		Avenue O. But, of course, I don't have any
20		subsequent memoranda or notes to refresh my memory
21		on following on follow-up considerations.
22	Q	And
23	А	But I do recall, as I told you, checking, and even
24		making my own sketch and whatnot, about whether or
25		not there was a back door that one could go out
		1

of. So I certainly thought that a -- and this is to a large extent speculative -- that it would be down -- she could go down the alley, as has been mentioned, and to a large ex -- to -- and the question of whether or not she was -- would cut over to Avenue N was possible, but it too was speculative.

Q Okay.

A I knew that people did walk down the alley because, as I told you earlier, I had interviewed

I knew that people did walk down the alley because, as I told you earlier, I had interviewed a lady who had been down the alley that morning, but it was not at the relevant time frame, so she wasn't of any assistance.

Q Go to 006197. This is where the judge deals with Nichol John, and we spent some time yesterday going through her evidence and how it was dealt with by the judge. He says here:

"I want to deal at this time specifically with the evidence of this girl Nichol John. You heard her in the witness box. You must have got some impression of the type of character she is, the kind of a person who would go on this particular kind of a trip in the first place, the kind of a girl who

1 would admittedly do the things that she 2 did in and around Regina, the fact that 3 she was a user of drugs - those are the kind of things I referred to before 4 5 which you will take into consideration in assessing a person's evidence. What 6 kind of a person are they? Are they 8 likely to be telling the truth? 9 they likely to be lying? But I want to 10 deal with it specifically and for the 11 purpose of trying to avoid making any 12 errors I have had a large portion of her 13 evidence typed out by the court 14 reporter, because as you will recollect 15 I gave permission to Mr. Caldwell to 16 cross-examine her on a statement that 17 she allegedly gave to the police and I 18 told you at the conclusion of that 19 evidence that anything that she did not 20 adopt at the time she gave the evidence 21 in the witness box in that statement was 22 not evidence against the accused." 23 Now again at this point, Mr. Tallis, as far as this direction and the credibility or lack of 24 25 credibility of Nichol John, are you able to tell

1		us whether, from Mr. Milgaard's perspective, you
2		were better off to have her credible or not
3		credible in light of her evidence?
4	A	Well of course, if she'd maintained her position
5		at the preliminary hearing that she didn't
6		remember anything or didn't see anything, that's
7		one thing, but as it unfolded, of course, I've
8		explained to you that she certainly created the
9		impression here that at at trial, that she was
10		holding back, and I think the presiding trial
11		judge felt that way. And, as I said yesterday, I
12		think he assessed the words "I don't remember" as
13		not an honest "I don't remember".
14	Q	Yeah. So is it fair to say, and we talked a bit
15		about this yesterday, that if the jury were to
16		find that Nichol John was not credible in her
17		evidence, that the likely or perhaps the only
18		alternative would be that the "I don't remember"
19		was not truthful and that the un-adopted statement
20		was really what happened?
21	A	I think there is always that risk.
22	Q	Now if we go to the next
23	А	And, as we were talking yesterday, it probably
24		it may well have been could be used to enhance
25		the credibility of Wilson in the eyes of some.

Now if we can go to the top of this page -actually, no, next page -- and I won't read
through this but I just want to touch on the judge
then -- if we can call out the top part, please -tells the jury, and he says:

"... there were certain things which

were read to her which she did admit. She admitted that she gave a statement, she admitted that it was in writing, she admitted that she had the opportunity of reading it over, she admitted that it was in narrative form, she admitted that she signed every page of it. She told you the kind of a room she was in when she gave the statement. I'm only going to pick out those parts of her testimony where she admitted that she had made a statement to the detective sergeant and admitted that those were true, because as I say you must disregard anything that she did not accept as being the truth. This question was put to her: ",

and then for the next five or five or six pages the judge actually read out the questions and answers where she adopted the parts of her

1		statement and adopted the fact that she had told
2		the police. Now I suppose one view of that might
3		be that she was confirming for the jury "here is
4		the only evidence that you should listen to", I
5		suppose another theory might be that, with
6		reinforcing with the jury that "lookit, she
7		remembered all of these things, that it might be
8		unlikely to accept that she didn't remember the
9		others"; do you remember having a view on that at
10		all about this part of the charge?
11	А	I don't specifically remember that now, but having
12		read it over at your request I'm certain, I'm
13		inclined to the view that it would have had the
14		latter effect that you mentioned.
15	Q	And so, in other words, that pointing out for the
16		jury that a good part of the statement she
17		remembered, she remembered the room, she
18		remembered saying it, she remembered observing it,
19		but that certain parts of the statement she
20		couldn't, and that that might be somewhat
21		suspicious; is that fair?
22	А	Yes. It goes back to our discussion yesterday
23		about "selective memory". I mean that's not
24		that's a phrase I was using to try and capture the
25		impression that may have been left.

If we can go to 006205. And here is where the judge talks about Melnyk and Lapchuk and that evidence, and if we can go to the next page, and then I think this is Melnyk he's talking about:

"And in considering that witness's evidence you will recollect that he has

21

22

23

24

25

evidence you will recollect that he has had considerable trouble with the authorities, that he was convicted of theft in the spring of that year and given a suspended sentence, that he is presently charged with armed robbery in Regina, that he hopes he will be able to establish an alibi and have the charges withdrawn, that he himself uses and used drugs, although he hadn't done so for a time previous to this particular incident, and that his evidence first came to light as a result of a conversation he had with Wilson about two weeks ago. Of course Wilson knew that he was going to be giving evidence in this case, he knew the story that he expected to tell at the trial of the accused and presumably he was discussing the incident with Malnyk and Malnyk said

1 that he Malnyk then volunteered this 2 information which he gave in the witness 3 box, so it seems to me the obvious 4 conclusion is that Wilson must have gone 5 hot-tailing it off to the police and told them about it and that's how the 6 police were able to trace these men down 8 and of course once they got the lead it 9 wouldn't be too difficult to find that 10 Lapchuk also was involved in it." 11 And we talked a bit about this yesterday, 12 about -- and I think the judge brought out this 13 evidence in questioning, and I think you said 14 that that tended to undermine the position you 15 were trying to take, that Melnyk or Lapchuk had 16 made a deal with the police or Crown or hoped to 17 make a deal with the police or Crown; is that fair? 18 19 Yes, and I think I covered that yesterday. 20 Then the next page. And then here is where Yeah. 21 the judge, I think, sums up: 22 "You may ask yourselves what would be 23 the motive in these persons of dubious 24 character inculpating the accused, which

they endeavored to do. You have to

25

1 consider whether the fact that they are 2 both now charged with crimes might have 3 something to do with it. They might 4 have been trying to ingratiate 5 themselves with the police, they might They might be telling the truth in not. 6 this particular instance, they might not 8 be telling the truth. That's entirely 9 for you to determine." 10 So, again, I think you had mentioned that the 11 character of these people, you asked the judge to 12 bring out in the direction, and it appears that 13 he did to some extent? 14 Yes, I recall that, and I think that that was an Α 15 aspect of the charge that was favourable. 16 Go to page 006209. At the bottom of the page, we Q 17 touched on this yesterday as well, this is the 18 hunting knife. Again he says: 19 "There is evidence that the accused had 20 two knives, a hunting knife and a paring 21 knife. We haven't heard much about the 22 hunting knife if he did have two knives. 23 It might occur to you to wonder why he didn't use the heavier knife if he did 24

use a knife at all instead of the paring

25

1 knife. If the accused did commit the 2 murder I suggest to you that the 3 evidence is such that you might conclude 4 . . . " , 5 actually, let me pause there about the time. Just back on the hunting knife, based on that 6 comment there, do you see any advantage to you in introducing the hunting knife that was found in 9 the back alley near Gail Miller's body about a 10 month after the murder? 11 Α No, I think I --12 Q You --13 Α -- explained that to you yesterday. 14 Now here is where the judge talks about time: 15 "If the accused did commit the murder I 16 suggest to you that the evidence is such 17 that you might conclude that it was 18 somewhere between a quarter to seven and 19 ten minutes past seven - if he did -20 because the girl was ready to leave the 21 house at between twenty-five to seven 22 and a quarter to seven and they arrived 23 at the motel at about seven ten." 24 And let me just pause there. I think, actually, 25 the evidence of Mr. Rasmussen was that it could

1		have been as late as 7:30, and so this time
2		window of 6:45 to 7:10, in fact I think what he
3		says is they arrived at the motel at about 7:10,
4		so in other words it would be probably 7:05 given
5		that they'd have to travel to the motel; is that
6		fair?
7	A	Yes, depending on the, you know, depending on the
8		speed they drove and whether they actually I
9		don't think that they knew where the Trav-a-leer
10		Motel was, they happened to see it and pulled in
11		there.
12	Q	Okay.
13	A	There was no suggestion that David knew where it
14		was.
15	Q	Now in your address to the jury you talk about the
16		time element on a number of occasions. If we look
17		at what the judge says here, and let's talk about
18		the two end posts, if I can call it.
19	A	Yeah.
20	Q	He says 6:45 is when she was ready to leave, so I
21		suppose unless the perpetrator well, let's go
22		back and take the Crown theory that it's David
23		Milgaard. Unless David Milgaard is standing at
24		her front doorstep, there would be a time frame
25		between 6:45 and when she left and walked down the

		street, so that if we try and narrow down, based
		on this direction to the jury, the time frame that
		the actual crime could be committed, that it's
		you'd have to add some minutes to 6:45; is that
		fair?
Ā	A	Yes.
ς	Q	And if it is the woman that was encountered for
		directions, and the fact that they then drove,
		whether it's a half a block or a bit, got out,
		tried to push the car out, I think the evidence
		was for a couple of minutes, and then David left
		the car, you might add another two to five
		minutes? In other words what I am trying to do is
		narrow the time frame
Ā	4	Yes.
Ç	5	for when David Milgaard could have contact with
		her, so we might be 6:50, 6:55, is that fair,
		maybe even 7:00 that he would first have the
		opportunity and, again, if we assume she was
		the woman that was asked for directions, the first
		time after that that David Milgaard could have
		contact with Gail Miller would be maybe, what,
		6:55, 7:00, based on his
Ä	4	In that neighbourhood, yes.
Ç	2	And then the time that they would have had to

1		leave to go to the Trav-a-leer might be, to get
2		there at 7:10, might be 7:05, maybe even earlier?
3	А	Yes, depending on factors that we can't be sure of
4		in terms of the driving and how, you know, how
5		fast they were driving, and the fact that they
6		were not specifically going to the Trav-a-leer but
7		ended up there because it was open.
8	Q	Let me just pause here for a moment. Would
9		and, again, did you have any quarrel at the time,
10		back in 1970 at the time of trial, with respect to
11		this window that the judge put in the charge to
12		the jury; in other words, would that be in
13		accordance with what you thought the time window
14		might be?
15	А	Yes, I thought the that, on balance, the
16		direction was favourable.
17	Q	Right. In fact, he could have gone 7:20 or 7:30
18		based on Rasmussen's evidence, could he not?
19	А	Yes.
20	Q	So, on that basis, I want to focus on your time
21		element argument. You then have and, again, I
22		appreciate it depends on how many minutes you add
23		on each side but it looks like the longest
24		opportunity might be 6:55 to 7:05; is that fair?
25	A	Yes, yes.
	I	•

		——————————————————————————————————————
1	Q	And, arguably, you might be able to shrink that
2		window to nothing; is that fair?
3	А	Yes.
4	Q	And that would be the impossibility argument
5	А	Yes.
6	Q	if it's nil, and the improbability argument if
7		it's maybe 10 minutes?
8	A	Yes.
9	Q	Is that fair?
10	A	Yes.
11	Q	And that's where we get back to the condition of
12		the body, the removal of the coat, putting the
13		coat back on, the stabbing, the rape, the burying
14		of the boot, the sweater, etcetera. And I think
15		that's the point that you were trying to make with
16		the jury, was it, that, based on this time window,
17		this could not have happened; is that fair?
18	А	Yes, I was trying to make that point, not only
19		with the jury but also with the judge.
20	Q	And so
21	A	Because I had the question of the charge in mind.
22		One always likes to get as favourable a charge as
23		you can, and
24	Q	And this
25	A	in the conduct of a trial, you try to achieve
		4

		<b>3</b>
1		that.
2	Q	And for your time element argument, I think you've
3		already told us this, this charge would be
4		considered favourable; is that fair?
5	A	I that is my assessment.
6	Q	Then to go to 006
7	A	And I think, also, I in fairness, I should say
8		that the manner and tone of the direction in this
9		respect came across as favourable.
10	Q	Now on, just on the time frame, would you have
11		you talked about making submissions to the judge.
12		Do you recall or are you able to tell us, based on
13		what you from observing this, whether you would
14		have gone into the judge and argued about what
15		time window ought to be put to the jury?
16	А	I can't say that, now, without you know, it
17		just, it would be unfair to all concerned if I
18		were to try to reconstruct that at this stage, I
19		just don't know.
20	Q	If we can go to 006211, please. I want to just
21		touch on this part of the charge. If we can go up
22		one line higher, please, it says:
23		"The Crown has advanced one theory",
24		and this is talking about the multiple stabbings,
25		and the judge says:
		4

"One would have thought ...",

or pardon me, let me back up:

1

20

21

22

23

24

25

"... advanced one theory to you that she may have been stabbed and either rendered unconscious or killed and afterwards raped. One would have thought that if that was so that whoever did the raping would be pretty well covered with blood; and if those were the circumstances and the accused had done it surely the Danchuks even though they weren't looking for blood would have seen blood if there had been a profusion of it, because how could a person be in contact with a woman like that, bleeding as she must have been bleeding, and not become himself fairly well covered with blood? And how was it that the coat was on her arms and yet her dress was pulled down? Of course there is always the possibility that she was threatened with a knife, raped and afterwards killed; there is always that possibility; whether you consider it or not is entirely up to you. But the fact

1 remains is that she was killed and the fact remains is that somebody had sexual 2 3 relations with her and the fact remains that her body was in such a condition 4 5 that there is evidence from which you might conclude in addition to the fact 6 that she had sperm in her vagina, that 8 she was raped at that particular spot 9 and it wasn't something that may have 10 happened back home with somebody with whom she consented to have intercourse." 11 12 And then it goes on to describe it and the 13 wounds, so it would seem to be from this that 14 this would be a favourable direction with respect 15 to your argument about the Danchuks not observing 16 any blood? 17 Yes, I'm sure that the learned trial judge had Α 18 picked up on that point based on the evidence that 19 was pursued during the testimony of the witnesses 20 and I think that it was an aspect that I had 21 canvassed in my address to the jury. 22 Q Okay. If we can go down to the bottom of the --23 actually, go to the next page, the bottom, he 24 says:

"Some of the evidence which was adduced

25

1		I suggest is not of very much assistance
2		to us. The fact that the wallet was
3		found near Cadrain's is not evidence
4		really which you could link up with the
5		accused. Whoever robbed her may have
6		thrown it anywhere, and the fact that it
7		was three doors away from Cadrain's
8		doesn't, I suggest, implicate the
9		accused to any degree at all. Anybody,
10		any person might have dropped it in that
11		particular locality."
12		And then it goes on to talk about it. I take it
13		that would be a favourable direction to Mr.
14		Milgaard about the wallet?
15	A	Yes. I have to say that on balance, at the time I
16		thought this was quite a favourable charge.
17	Q	Then to page 006216
18	A	You'll see the toque he mentioned as being of no
19		consequence.
20	Q	Right. Sorry, yeah, I should have mentioned that
21		as well.
22	А	That's another aspect of that same point.
23	Q	Right, I think he told the jury to disregard the
24		toque and the wallet as in any way being evidence
25		linking Mr. Milgaard to the crime.

Now, here's where he talks about the motel room and he says:

"In the first place you must consider whether the witness who gave evidence that a statement was made is telling the truth. If you come to the conclusion that he wasn't telling the truth or that you have a doubt as to whether he was telling the truth, then you must disregard that entirely."

So in other words, if the jury doubts Melnyk or Lapchuk, they must disregard it entirely.

"If you come to the conclusion, however, that one of the witnesses or all of the witnesses were telling the truth when they said that the accused said such and such a thing - if you come to the conclusion that they were telling the truth, you must go further and determine whether or not in fact the accused was telling the truth, because it could only be accepted as evidence against the accused if you concluded that he did make the statement and that in making the statement he was telling the truth.

1		Sometimes persons make statements which
2		are completely untrue - for various
3		reasons. Persons have been known to
4		admit to things that they didn't do;
5		persons have been known to boast about
6		things that they didn't do. And so in
7		order to consider that evidence you
8		would have to find not only that the
9		statement was made or the statements
10		were made but that the person who made
11		the statement was in fact telling the
12		truth."
13		And I take it that would be a favourable
14		direction with respect to the motel room
15		evidence?
16	A	Yes.
17	Q	And then the next page
18	A	I wonder if we can break at this point?
19		MR. HODSON: Sure, yeah.
20		(Adjourned at 10:25 a.m.)
21		(Reconvened at 10:49 a.m.)
22		BY MR. HODSON:
23	Q	Go back to 006217, and just again, this was
24		talking about the charge to the jury and the motel
25		room reenactment, he says:

1 "There is evidence, however, that the 2 accused was under the influence of drugs 3 when he was alleged to have made these 4 statements in the motel. Now, being 5 under the influence of drugs would he be more likely to create a bit of a 6 sensation by admitting something that 8 wasn't true? Would he be more likely 9 under the influence of drugs to have his 10 inhibitions removed and be more careless 11 about guarding his tongue? Those are 12 all matters that you will have to 13 consider in determining whether or not 14 if you do believe these witnesses that 15 the accused did make those statements, 16 whether the accused in fact was telling 17 the truth when he made the statements." So in other words, the fact that Mr. Milgaard was 18 19 on drugs at the time he allegedly made these 20 statements could cut both ways, it might mean 21 he's more truthful, it might mean he's more 22 likely to lie; is that fair? 23 Α That's correct. And that would be -- did you consider that a 24 25 favourable charge?

		<b>o</b>
1	A	Under the circumstances, I would have considered
2		it a favourable direction.
3	Q	Then go to 006219
4	A	And I just should add that when I say that, I'm
5		very conscious of the tone of the direction.
6	Q	Well, you were there and heard it. Can you tell
7		us that
8	А	And when I was there I thought the tone was a
9		favourable tone.
10	Q	And here, after he's finished his charge, he asks
11		for suggestions, the jury is out, and you make
12		some suggestions here, I'll just go through a
13		couple of them, and I think you are talking about
14		when Gail Miller left her house:
15		" that the only thing left for her to
16		put on were her shoes and with the
17		utmost deference to your Lordship's
18		recollection may I suggest that the
19		evidence in fact establishes that she
20		did not have her shoes on; she was
21		dressed in her uniform and her hair was
22		combed back but on the contrary the
23		evidence points to the fact that she did
24		not have her coat on or gloves or
25		anything like that."

1		And I take it this would be trying to add a few
2		minutes to the 6:45, or reducing the window?
3	A	Yes. I thought that was a reasonable suggestion
4		based on the evidence.
5	Q	006220, the next page, you bring up a point here,
6		in the charge to the jury the judge had talked
7		about things that inculpated the accused and you
8		say:
9		"I suggest that some areas of Your
10		Lordship's charge must be amplified and
11		I say it for this reason. When we come
12		to - to going into the facts of the case
13		Your Lordship started out with a
14		reference by saying - what are the facts
15		that in effect incriminate the accused?"
16		And then the word inculpate, and then there's a
17		discussion, and I don't think we need to go
18		through, but I think what you said to the judge
19		is lookit, I think you should go and highlight
20		those facts which exculpate the accused; is that
21		correct?
22	A	Yes.
23	Q	And then to page 006223, and at the top, again
24		this is you making reference about emphasizing the
25		exculpatory and that:

	i	
1		" one would expect to find blood in
2		some substantial quantity."
3		I think on Mr. Milgaard.
4		"But I suggest, My Lord, that in
5		considering that aspect of the case,
6		Your Lordship should also have made
7		reference by way of exculpatory facts to
8		the conduct and demeanour of the accused
9		as seen by independent witnesses.
10		Rasmussen"
11		And then down at the bottom, and then:
12		"No, no immediately afterwards - his
13		conduct at the hotel, his conduct at
14		Danchuks."
15		Etcetera. So it would appear that you are asking
16		him to go back and re-emphasize that as being
17		exculpatory?
18	A	Yes, or add a little to what he had said in his
19		direction.
20	Q	And then if we can go back to 006225, and there is
21		also a reference to the time element in there, so
22		after this discussion go to 006225, please. So
23		the jury returns and the judge says:
24		"Members of the jury, I have been asked
25		to draw certain things to your attention
		4

which I am very glad to do."

And then scroll down, it talks about:

20

21

22

23

24

25

"First of all I dealt with evidence which I referred to as being the type of evidence which you might consider as inculpating or incriminating the accused. You recollect I went through the various things such as the evidence of these witnesses about some blood on his clothing, the evidence with respect to the statements that he is alleged to have made and so on. And then I went on and brought out matters and drew them to your attention which were indicative of the fact that he didn't commit the crime, this is exculpatory matters, but I didn't refer to them as exculpatory, I didn't refer to them as matters which you could consider which were the opposite of incriminating, and you will recollect that after I was through with a certain number of observations I went on and I said there was no scratches on his face, the type of characters who were giving this evidence was such that

you would have to scrutinize it very carefully, the fact that there was no profusion of blood on him and the fact that a person who would have sexual intercourse with a woman after she had been stabbed would likely have blood on him, the fact that Danchuks saw no blood - those are all intended to be by way of exculpatory, those things which you can consider which indicated the accused was not - and apparently I didn't indicate it plainly enough to you to show that I was trying to place before those facts which you would consider in discounting any suggestion that these other matters were incriminating."

21

22

23

24

25

"I also referred to the time that the girl Adeline Nyczai saw the deceased in the house and I used the words that Nyczai had said that she was ready to go to work but she didn't have her shoes Now you will recollect this evidence better than I did. I know that she said "ready to go to work" but she also said she did not have her shoes on, and I also believe this - and again it will be a matter of your recollection that she didn't have her coat on and she didn't have her gloves on and there's nothing to indicate that she in fact did leave the house immediately after Nyczai She might have left there ten saw her. minutes later, she might have gone back into the room and done something or other; the only evidence is that Nyczai did hear a door closing or footsteps or something like that but there is nothing to pin it down as to the fact when she in fact did leave the house."

So again, only the time factor there, that would

		- Fage 24000
1		be a favourable direction because it would move
2		the 6:45 possibly later?
3	A	Yes.
4	Q	Shrink that window we talked about earlier?
5	A	Yes.
6	Q	And I take it minutes, would it be fair that
7		minutes being reduced on that window were
8		important? I think we were dealing with
9	A	Yes, I think minutes counted.
10	Q	And then scroll down, please, you say:
11		"I also referred to the evidence of
12		Wilson when he said that John was
13		hysterical when he returned and I also
14		referred to John's evidence in which she
15		had admitted that she had moved over
16		towards Wilson when the accused got in
17		the car. But you will also bear in mind
18		this - that if she was hysterical as a
19		result of something happening, if she
20		was afraid of the accused you would have
21		thought that she would have taken the
22		first opportunity to leave the car and
23		not get back in it again; in other
24		words, she wouldn't have continued on
25		with the other two on their little jaunt

1 up to Edmonton, she wouldn't have 2 remained with them if she had been that 3 upset or that hysterical or that concerned about it; if she was afraid of 4 5 the accused and she had ample opportunity to get out of the car and 6 stay out of the car at the various 8 places they stopped around Saskatoon." 9 And I take it that that would be a favourable 10 part of the charge to Mr. Milgaard? 11 Α Yes, in my view it was. 12 Then to the next page --13 And I should add that, as I said before, I was 14 very conscious of the tone in which this was 15 delivered and I considered it to be a favourable 16 type of tone under the circumstances. 17 And again just to go back, and this is the 0 18 follow-up charge, if I can call it that, after the 19 judge heard your submissions on the earlier pages, 20 and starts here: 21 "Some considerable time was taken by 22 counsel and by me too in dealing with 23 this matter of time and the question as 24 to when the deceased left the house may 25 be of very considerable importance to

you in determining whether or not the accused could have had the time to rape, murder and steal, or whether the time was such that it was too short for him to have been able to do all these things which as you will recollect one of the police officers said in connection with the coat - well, this would all take some time. So you bear in mind the time factor, I suggest, Members of the Jury, very seriously in determining whether or not the accused could have done the things with which he is charged - could have done the thing with which he is charged.

Also there is no evidence of his actions that morning after arriving at the motel - I think the motel was the first place where he saw anybody who might have seen his condition other than the two occupants and other than the people who helped push the car - and we haven't got their evidence - and in the Danchuk house and in the Cadrain house - that there was nothing about his manner

or speech or conduct which was anything other than normal. In other words, there was nothing from which you might conclude that he was upset about anything or had a guilty conscience or he had done something that was wrong.

I referred briefly to Cadrain's You will recollect that he evidence. went to the police after he returned to Saskatoon but that he was first questioned by the police in Regina and he admitted that at that time he had no recollection of anything unusual in the appearance of the accused, no recollection of any blood on him, and I think no recollection of a rip in the trousers at that time when he was being questioned, and he said that he was trying to tell everything that he remembered truthfully and that he had no recollection of those things.

Thank you."

So that's the end of his charge. So again,
Mr. Tallis, would those parts would you have
considered to be, both in substance and in tone,

favourable directions to the jury?

Α

Yes, I did, and one of the reasons, in addition to the obvious, that I asked for the additional direction, or directions, is that I was certainly of the view at that time that jurors tend to place significant weight on the observations or directions of a presiding trial judge, and this of course was a favourable approach in most respects and essentially were the last words that the jury heard; in other words, the last direction was from the judge, and this supplementary direction covered quite a number of points that in my view were helpful to David's cause.

Now, I'm trying to give you my recollection going back to the time and I think that it's quite reflective of the position I felt I was in at that time. I suppose I can sum it up by saying this, at the end of that supplementary set of directions, I was pleased that I had asked for those additional directions because I don't think -- and because I know that the judge did not in any way denigrate or belittle the positions that I had put forward when inviting him to address those aspects of the case. I hope I'm making myself clear on this, and I'm trying to

divorce it from any subsequent experience I had as a trial judge.

Uh-huh. Just on the point, and you touched on

Α

this a bit earlier, but I would like you to just elaborate about, we talked a fair bit when we were going through some of the key evidence about what, sort of your strategy and what questions you would ask witnesses, what questions you would not ask and the impressions of the jury, and I think obviously that is one audience that you are playing to as defence counsel, if I can use those words, in how you conduct the trial and the questions you ask and don't ask.

What about the trial judge, you talked a bit about the importance of the direction to the jury. Can you tell us what, again in this trial as defence counsel, what your objectives were as far as the trial judge and, in particular, with respect to the charge to the jury at the end of the evidence?

Well, as I've indicated to you, perhaps not as clearly as I should have, I thought at that time that the trial judge played a pivotal role in any jury trial and, so there's no misunderstanding, I still feel the same way.

1 I know that the burden -- the 2 element of persuasion focuses on the jury as the 3 fact finders, but I always think that when you are dealing with matters, whether of admissibility or 4 5 with respect to the final instructions by the 6 presiding judge, it is important to realize that there is an element of persuasion involved in that 8 aspect of the case, and frankly that's what I was 9 trying to do here, not only with respect to the 10 main charge, but when that charge was finished I did feel that it was in David's best interests for 11 12 me to endeavour to persuade the presiding judge to 13 amplify some of his directions and include one or 14 two other items in it. I'm sorry, I'm afraid I'm 15 being too long winded here. 16 If we can then just go to the --Q No, that's fine. 17 the jury was out, I think the transcript reflects 18 they were out over night and maybe were in 19 deliberations for 10 or 12 hours, does that -- I 20 stand to be corrected on that, but --21 Α I know that they were out a long time and I have a 22 general recollection that they deliberated late 23 into the evening and then returned the following morning for deliberations. 24 25 And again --Q

1	A	You will have the record, so I don't dispute the
2		record.
3	Q	I think what you said is correct, I'm not sure how
4		many hours, but they were in at least, I think, 10
5		hours, maybe I'm overstating that, but more than a
6		couple of hours. Do you recall, based upon your
7		experience at the time, was that an unusual amount
8		of time for the jury to be out or did you read
9		anything into the fact that they were out that
10		time frame?
11	A	I don't think I did. I thought that it was
12		certainly a lengthy period of time and from that
13		I'm sure I concluded that they were giving the
14		matter very conscientious and careful
15		consideration.
16	Q	If we can now go to the, 006851, I think the
17		verdict was handed down on January 31, 1970, and
18		this is the Notice of Appeal dated February 10,
19		1970. Can you tell us how maybe just go to the
20		next page on this document about what happened
21		after the verdict and before this Notice of Appeal
22		was filed and what happened?
23	A	Well, I can't recall all the details, but of
24		course I discussed the matter with David. We had
25		not achieved the hoped-for result, but I'm not
		Meyer CompuCourt Reporting

sure whether it was that very day, I rather think it was, but if not, the following day I discussed with him an appeal, I recommended an appeal and got his instructions to prepare and serve and file a Notice of Appeal and that I did.

I personally drafted up this

Notice of Appeal which you have shown me and at

the time I considered the section 9(2) point to be
a significant one, and also the question of
whether or not the verdict was unreasonable. I

know that challenging a verdict as unreasonable
has always been an uphill battle, but this is one
of those cases where I thought that it was a point
of sufficient merit to pursue.

I recall, of course, the point about the blood group evidence with respect to Wilson. I suppose that was, in a sense, a subsidiary point, but I wanted to make it abundantly clear on any appeal that our case never was that we were suggesting that Wilson had killed the girl or had anything to do with this crime, our position was that the evidence did not support a conviction of David, so that sort of gives you a bit of the background which I've distilled as best I can without all my file notes.

Q

The second thing is I know I felt strongly enough about the appeal that I spoke to my colleagues and I think, I'm sure -- well, I know I drafted the appeal and probably launched it before I had the authorization from Legal Aid. The transcript was a very lengthy transcript and I knew that that of course would be a significant disbursement based on, you know, prevailing costs, but my position, and I had the full support of my partners, was that we would carry the appeal to the Court of Appeal whether or not any authorization came from Legal Aid. Now, as it turned out, the Legal Aid committee, as I recall it, and I don't

Aid committee, as I recall it, and I don't remember the members who attended the meeting, but they asked me to attend, I think probably Mr.

Heidgerken had phoned, and I did attend, I was asked to outline essentially the basis upon which the appeal was being taken, and the authorization then came for the limited funding that was permissible, but in particular that would cover the transcript. In other words, it could be ordered without any regard for what the cost of that would be.

And so if Legal Aid had not -- let me just back

1		up. Your earlier Legal Aid authorization then was
2		only, in effect, until the end of trial; is that
3		correct?
4	А	That's right. The practice there was to have the
5		steps authorized by the committee. Now, I can't
6		remember the sort of guidelines that they had, but
7		I seem to recall that someone on the committee was
8		interested in the section 9(2) point, and of
9		course since that was relatively new legislation,
10		it seemed to carry the day.
11	Q	Was it, in cases where you defended an accused at
12		trial on Legal Aid, did it necessarily follow that
13		they would also approve to provide funding for a
14		subsequent appeal or did you have to go back to
15		the committee?
16	A	My recollection is you had to go back.
17	Q	And was it a were there cases to your
18		recollection where you might not get funding on
19		the appeal?
20	A	I think there were. I seem to recall at least one
21		case where they said no because they didn't feel
22		there was sufficient merit to it.
23	Q	And so just back to your decision then when you
24		filed the appeal, if Legal Aid funding had not
25		been provided, is it your evidence that you and
		<b>.</b>

		1 ago 2 401 1
1		your firm then would have covered the costs of the
2		transcript and other costs related to the appeal?
3	A	Yes.
4	Q	If we can just go through the grounds quickly
5		here, you talked about 9(2), and we've covered
6		that, and I take it that's the issue we talked
7		about yesterday,
8	A	Yes.
9	Q	that it should have been done in the absence of
10		the jury, and that's the point we discussed
11		yesterday; is that correct?
12	A	That's correct.
13	Q	Go to the next page. The blood type you talked
14		about, Ron Wilson, and I think you were saying
15		that your position was you didn't want the jury to
16		think that you were pointing the finger in any way
17		at Ron Wilson
18	A	Yes.
19	Q	I think; is that correct?
20	A	Yes.
21	Q	Number 3 is the, I believe the motel room
22		reenactment witnesses, and you say they:
23		" erred in admitting their evidence
24		when it was of no real probative value
25		and yet was highly prejudicial";
	I	lacksquare

		•
1		can you expand at all on that?
2	A	Well on I think that that was drafted when I
3		was probably in a rather partisan frame of mind
4		and, later, I think I realized that that was not a
5		point that I could really make any headway in an
6		appeal.
7	Q	And if we can scroll down, point number 4, this is
8		the in regards:
9		" to the nature and character of the
10		evidence adduced on behalf of the
11		prosecution, the verdict of the jury is
12		unreasonable and cannot be supported on
13		the evidence."
14		Can you tell us, what were the what parts of
15		the case were you suggesting gave rise to this
16		suggestion that the verdict was unreasonable?
17	А	Well, this focuses particularly on the time
18		factor, and we've discussed that.
19	Q	Okay.
20	А	Unless you want me to elaborate?
21	Q	No, I'm just just the subject. So the time
22		element, again,
23	А	Yes.
24	Q	that the verdict is unreasonable because, based
25		on the evidence,
		•

		——————————————————————————————————————
1	-	
1	A	Yes.
2	Q	I think your words were that the accused, it
3		was impossible for him to have committed the
4		offence, or highly improbable given the time
5		frame?
6	A	Yes.
7	Q	Is that a fair
8	A	Yes.
9	Q	What about the secretor issue; was that part of
10		this
11	A	It was also, that was included under that 'verdict
12		is unreasonable', during the course of the
13		argument in the Court of Appeal that was discussed
14		as well.
15	Q	And so that would be the basis that the physical
16		evidence actually excluded Mr. Milgaard
17	A	Yes.
18	Q	as the perpetrator?
19	A	Yes.
20	Q	And then point 5, I think, amplifies the Section
21		9(2), and we talked about this yesterday.
22	А	Yes.
23	Q	"That the learned trial judge's error in
24		admitting cross-examination of the
25		witness, Nichol John by Crown counsel in

1 the presence of the jury, before any 2 declaration was made as to her being 3 adverse, was so prejudicial to the 4 Appellant ...", 5 etcetera. So that is what we talked about yesterday? 6 That could have been rolled in with the Α 8 first point, but I guess I decided to reiterate 9 it. 10 0 Now we've heard some evidence that -- we're done with this document -- that at this time there was 11 12 no requirement to file a factum with the Court of 13 Appeal; is that correct? 14 Α That's quite correct, the rules of procedure with 15 respect to criminal appeals did not require the 16 filing of a factum or written argument, and for 17 many years the practice was not to do so. I think it probably -- well, I don't want to weary you 18 19 with notions here -- but I think it stemmed from 20 the practice in England where it was strictly oral 21 argument, and later on -- but this is much, much 22 later, well into the '80s -- that there was a 23 practice direction issued, as distinct from a Rule 24 of Court, directing that written argument or a

factum be filed in criminal appeals.

25

1		before that direction, some counsel had started to
2		file a written outline of their argument, and so
3		forth, but in this era that we're talking about
4		that was not done.
5	Q	And we, in fact, have made efforts to check the
6		Court of Appeal file and there is no record of
7		anything being filed by either you or Mr. Kujawa;
8		does that accord with your recollection?
9	A	Oh, I'm quite sure that's correct, because at that
10		time that was the practice.
11	Q	So the Court of Appeal would have the transcript;
12		is that correct?
13	A	That's correct.
14	Q	And would they have any of the physical exhibits;
15		do you recall?
16	A	I can't recall now, but I think the practice was
17		that the exhibits were sent down if the Court
18		requested it.
19	Q	Just to call up 066603, just go through some
20		correspondence regarding the setting of the date,
21		presumably you would have to wait for the
22		transcripts of the trial to be typed up before the
23		appeal could be heard; is that fair?
24	A	Yes.
25	Q	And here's a letter September 17th, 1970, you
		4

1		write to Mr. Kujawa, and at that time I think he
2		was the individual with the Attorney General's
3		office that argued appellate matters generally; is
4		that correct?
5	А	Yes. Now I don't know whether he was the Director
6		of Public Prosecutions at the time, or the
7		equivalent, but certainly he was very senior and
8		did most of the appellate work.
9	Q	And had you dealt with Mr. Kujawa prior to this
10		case?
11	A	Yes.
12	Q	And can you describe the working relationship you
13		had with him?
14	A	I thought we had an excellent professional working
15		relationship. He lived in Regina, and of course I
16		lived here, so our contact was of a professional
17		nature, but, to my way of thinking, it was
18		excellent.
19	Q	And as far as the date, there's just a couple of
20		documents here, it looks like you write to him in
21		September about a date. And then 066602, this is
22		an internal memo September 22nd about a call from
23		you, and I don't want to get hung up on the
24		details but it looks as though you are talking
25		about a date in early part of November 1970. And
		<b>1</b>

1		then 066594 is a letter October 7th to Mr. Kujawa
2		confirming the date, it's November 6th, 1970 at
3		10:00 a.m., and you thank him for your assistance
4		in picking a date which suits your convenience.
5		And do you recall whether there was any effort by
6		Mr. Kujawa to delay the hearing of the appeal? I
7		think the evidence shows
8	A	I do not recall any such thing. I think that the
9		date was worked, you know, that we knew that the
10		Chief Justice would fix the date, but he was
11		always very accommodating in my experience and
12		often I probably said to Mr. Kujawa that "would
13		you be good enough to check with the Chief
14		Justice, since you are in Regina, and let us have
15		some suggested dates".
16	Q	And, again,
17	Α	That was certainly the practice in those days, and
18		
19	Q	From this correspondence it looks like in
20		mid-September you asked for a date to be set, and
21		then by agreement it looks like it may have been
22		scheduled to fit your schedule, is that correct,
23		on November 6th?
24	А	Obviously I was available for that time, and it's
25		nice to know well in advance when a case is being
		1

1		heard, and certainly that was the practice in
2		those days, the Chief Justice was certainly
3		receptive to fixing dates and fixing them well in
4		advance. Now, once fixed, you were expected to be
5		ready to go on that particular date.
6	Q	If we can go to 009340, please. This is the Court
7		of Appeal judgement of Chief Justice Culliton on
8		behalf of the Court, it's dated January 5, 1971,
9		but I believe argument did in fact take place on
10		November 6th, 1970. Can you tell and this was
11		a five-judge panel of the Court, is that correct,
12		Culliton or pardon me Chief Justice Culliton
13		and Justices Woods, Brownridge, Maguire, and Hall?
14	A	I think that was the whole Court at the time.
15	Q	The whole Court?
16	A	The full Court.
17	Q	Yes. Was that unusual, to have the full Court sit
18		on an appeal?
19	А	Well, I think that in significant cases it was,
20		and in this particular case of course the Section
21		9(2) point was involved. I can't speak for The
22		Court at that time, but I think that's probably a
23		consideration that went into having the full Court
24		sit.
25	Q	Can you tell us, Mr. Tallis and I appreciate
		1

1 we're going back 35 years, 36 years -- but can you 2 give us your general recollection of the appeal, 3 what was argued? We do not have the benefit of 4 any factums or a transcript of that, we have their 5 decision, but can you give us, to the best of your abilities, what you recall about the appeal 6 itself, and perhaps your observations about where -- what the Court may have been interested in, 9 things of that nature? 10 Α I can fairly say that the Section 9(2) 11 interpretation and application attracted a good 12 deal of attention and comment during argument. 13 far as details of it, at this stage I cannot go 14 into it, but on that particular aspect of the case

Mr. Kujawa -- first of all, at the conclusion of the appellant's argument, Mr. Kujawa was called

do not need to hear from you, Mr. Kujawa", so that

It was not a case where The Court said "we

was an indication that they treated the matter

seriously.

upon.

15

16

17

18

19

20

21

22

23

24

25

And when dealing with the Section 9(2) argument, Mr. Kujawa did not resile from the position that had been taken by Mr. Caldwell on the issue of a voir dire, in other words hearing the matter in the absence of the

jury. So, essentially, the Court agreed with the position, with in effect the joint position that we had taken at trial and the submission which I made with respect to the matter. And I recall in my brief, because I had prepared a brief, drawing the analogy to the situation of where you have a voir dire with respect to the admissibility of a confession, and the fact that the burden was on the Crown to call all the material witnesses, because that was what had been going on, in my mind, at the trial.

So from that developed the, ultimately in the judgement, the seven steps I think you put to me yesterday, and the question arose as to whether or not -- and I'll use the term -- whether or not this was 'reversible error'. And in using that term I am referring to the section of the Criminal Code that deals with that concept. And as far as the details of the argument on that, I don't remember, but I know that was a point that Mr. Kujawa took during his submission.

Now with respect to the unreasonable verdict aspect -- and here I don't want to be too long-winded and be repetitious -- I

recall that, and I don't know which member, I recall one Member of The Court was very interested in the time factor, so I traced through this limited time frame, as well as referred to the serological aspect of it, in dealing with the unreasonable verdict aspect. Now I believe Mr. Kujawa took a contrary position but, in his usual way, he did not use any strident language on it, so we ...

And on the point with respect to Wilson, I really can't say exactly what was said in the discussion about taking of the blood type or grouping from him, but of course that was dealt with in the decision. So I really can't tell you much more than that without my notes.

And do you recall -- maybe, actually if we could go to page 009355, and this is just where the Court is reciting the facts and they spend a couple of pages where they actually repeat, verbatim, the evidence of Mr. Melnyk, do you recall -- and actually to the next page and the page after. Do you recall whether that was a significant issue that the Court of Appeal had raised or had concerns about?

You know, I can't recall now.

It's obvious to me,

Q

Α

1		reading it, that it was on their mind and it may
2		well have been raised.
3	Q	If we could then go to 066582. And this is a
4		letter February 9th, 1971 to Mr. Heidgerken, and
5		it appears that you are seeking Legal Aid approval
6		to seek leave of the Supreme Court of Canada; is
7		that correct?
8	А	Yes.
9	Q	And, again, on the interpretation of Section 9(2),
10		and then you say that:
11		" it could probably be handled by an
12		agent in Ottawa at much less expense."
13	A	Yes.
14	Q	Do you recall, and I think the application was in
15		fact handled by Mr. Crane in Ottawa; do you recall
16		how that came about?
17	A	No, I really don't, other than to tell you that,
18		number 1, I had encouraged David to pursue it, and
19		when Legal Aid was turned down I indicated to him
20		that it was still open to appeal on this point
21		probably in person, and I think I likely said "The
22		Court would probably appoint somebody on a leave
23		application". But then my recollection is
24		somewhat frail in this area, as it may be in
25		others, because in my discussions with David
		Meyer CompuCourt Reporting
		Certified Professional Court Reporters serving P.A. Regina & Saskatoon since 1980

and this was by phone, I don't think it was by

letter -- he told me that he was getting advice

and assistance from a Mr. King, I think it was.

And at that time I understood this person to be a

lawyer who had either been involved in cases in

Alberta or British Columbia, and I didn't know the

gentleman, and, you know, I didn't think it

appropriate that I start asking David a lot of

questions about it. Now, years later I found out

that he wasn't a lawyer, but --

Q Who was he?

А

Well I think I was informed that David had met him in prison, but then there was some indication that at least somewhere along the line, whether it was when he got out of prison or whether it was before, that he was a criminologist who was helping lawyers draft up appeals, and that included Supreme Court materials. I know that David, I think, sent to me a draft of the points of appeal just in point form and asked, you know, what my view was of it, whether it was a fair way to put it, and I recall telling him that I, you know, I was reluctant to interfere with what his counsel was now doing. And he said, well, that he just really would like my assessment, my opinion,

as to whether or not it covered the points. I think what he was really asking for was a second opinion on it, and I recall telling him that I thought that the draft that I had received from him adequately raised the primary point, and that was the Section 9(2) issue.

Now I think there were other points included, but -- so that's, that's essentially what I recalled, because it wasn't until years later that I found out who Mr. King was. And I, I mean I'm not sure of all the details of his practice and whether or not he had an association with law firms, but I think that's what was intimated to me, as I say, many years later.

Okay. If we could just, on this letter -- and, again, this is your February 9th, 1971 letter to the committee where you are seeking approval to take the 9(2) issue to the Supreme Court -- you say:

"I would also point out that I think that Mr. Kujawa would co-operate in facilitating this matter if you feel it should be pursued."

Can you explain that comment?

g \_\_\_\_\_gina & Saskatoon since 1980 go to www.compucourt.tv

Q

1	A	I can't give you the genesis of that paragraph,
2		but it tells me that I probably asked Mr. Kujawa,
3		after the judgement came down, what his position
4		would be, and I don't think I would have said that
5		to Mr. Heidgerken unless I had had a signal, one
6		way or another, that Mr. Kujawa would cooperate in
7		facilitating this matter if it could be pursued.
8	Q	And
9	A	And that was indicative of the relationship that I
10		had with him on a professional level.
11	Q	Can you explain that?
12	A	Well, I never had any hesitation in raising
13		matters of that nature with him, and that started
14		with even picking the date for an appeal. And
15		there were occasions where, I can recall in
16		particular one where I was asked to undertake an
17		appeal, I hadn't been trial counsel, and my
18		research and uncovering of information indicated
19		that at best the that there ought to have only
20		been a conviction for a relatively minor offence.
21	Q	This is a different matter, not the Gail Miller
22		matter; correct?
23	А	No, nothing whatsoever.
24	Q	Carry on, yeah?
25	А	And so, as a result of that, he looked into it
		•

with the information that I had, I had the appeal pending, but I suggested that if what I gave him was verified, my instructions were that we would agree to the appeal, and sentence being set aside, and that a conviction entered for a much less -- a much lesser offence, and in that particular case, involving a young person, that's what happened.

Now I use that to describe the working relationship that I had with him on a professional level, and that happened on other occasions too, but I can't specifically recall. I think there was one other, now that I mention it, that I specifically recall.

But in any event, the upshot was that we appeared in front of The Court, made a joint submission, and indicated that if The Court approved this criminal litigation could be put to an end with the following relief, and the Court adopted that approach. But it meant that the appeal did not have to be argued in the usual way, and that was because he had followed up on my request to check out what I believed to be the case, and I don't want to belabour it but that was -- that's why I can say that there were various times I received what I would call significant

		Page 24693
1		cooperation from him.
2	Q	From Mr. Kujawa?
3	А	Yes.
4	Q	And so this
5	А	And, I must say, I always thought that The Court
6		welcomed that type of thing.
7	Q	So in this case, and again based on this comment,
8		are you telling us that you I think you said
9		that you believe you would have talked to Mr.
10		Kujawa after the judgement of the Court of Appeal
11		and got some sense that he might support the issue
12		going to the Supreme Court?
13	А	From reading that paragraph, which I do not
14		remember writing and I do not remember the
15		background to it, I think that's a fair and
16		reasonable inference.
17	Q	If we could then go to 002351. And, again, this
18		is the memorandum of argument filed in support of
19		Mr. Milgaard's application for leave, and I think
20		Brian Crane filed that; were you involved at all
21		in the preparation of this memorandum?
22	А	No. I think that the first time I saw I have
23		ever I don't think I saw it before you directed
24		my attention to the document.
25	Q	And then 002359 of this, this is in the

application, it reads:

1

2

3

4

5

6

8

9

10

11

12

13

14

15

16

17

18

19

20

21

22

23

24

25

"It is submitted that subsection (2) of s. 9 of the Canada Evidence Act is not an exception to the general rule that a witness must be declared adverse before cross examination by the Crown is permitted in front of the jury. section only makes it clear that the trial judge may take into consideration the circumstances of a prior inconsistent statement in determining whether a witness is adverse, which question the authorities prior to the amendment had left in doubt. All cross examination, it is submitted, prior to the finding adversity, must be held in the absence of the jury.

The Court of Appeal suggests
that in this case there could have been
no prejudice to the accused but in fact
had counsel for the accused been
permitted to cross examine Nichol John
as to the circumstances in which the
statement had been made the trial judge
might well have determined that leave to

1 cross examine before the jury would not 2 be given and that the witness would not 3 be declared adverse. In any event such 4 cross-examination was not permitted at 5 any stage either in on the voir dire or in the presence of the jury prior to the 6 finding that the witness was adverse. In these circumstances it is impossible 8 9 to say that there has been no prejudice 10 to the accused." 11 Now I appreciate these are another lawyer's 12 submissions, but would that be consistent with 13 the position that you put forward before Chief Justice Bence and before the Saskatchewan Court 14 15 of Appeal on this issue? 16

Very much so. Α

17

18

19

20

21

22

23

24

25

And then if we can go to 053142, this is the decision of the Supreme Court of Canada, it says:

> "'Leave to appeal is refused. In making this decision we express no view as to whether before granting the leave to cross-examine provided for in s. 9(2) of the Canada Evidence Act, the Court is required to conduct a voir dire as to the circumstances in which the statement

1 in writing was obtained. '" 2 And I think we talked a bit yesterday, but the 3 Court of Appeal decision in the Milgaard case ended up being followed in many other provinces, 4 5 and indeed in Saskatchewan, for some time, and in fact still is the law today; is that fair, --6 Yes. Α -- with maybe some modification later? 8 0 9 And I think that in a later case, the Α Yes. 10 Supreme Court may have approved of the procedure, 11 but I, you know, I'm not briefing things like that 12 now, but I'm sure that there are lawyers here that 13 are quite familiar with those more recent 14 authorities. 15 COMMISSIONER MacCALLUM: Was that 053142. 16 MR. HODSON: Yes. 17 COMMISSIONER MacCALLUM: Okay, thanks. BY MR. HODSON: 18 19 I'm done with that document. If we can now move 20 into a different area. You have testified that 21 after you finished your involvement in this case, 22 and in particular after you were appointed as a 23 judge of the court in 1976, that you did not read 24 any further materials on this matter, nor did you

follow events in the media, and similarly, when

25

1		you testified at the Supreme Court of Canada, I
2		think you told us you considered yourself to be
3		bound by, with the exclusion of witness order, and
4		therefore read nothing or very little in
5		preparation of your testimony?
6	A	That's correct.
7	Q	And would it be fair to say that until such time
8		as you and I got together for the purposes of the
9		Commission work, and I provided you with some
10		information, that your reading on the matter or
11		knowledge of the matter, apart from what you knew
12		at the time of trial, would be minimal?
13	A	That's correct.
14	Q	And so in other words, you would not have and
15		it goes without saying that at the time of trial
16		you obviously wouldn't have been aware of the
17		information you didn't have; correct?
18	A	That's correct.
19	Q	And then in subsequent years is it fair to say
20		that you wouldn't, you wouldn't, either through
21		the media or other sources, become aware of some
22		of that information; is that fair?
23	A	Probably, but, you know, I wasn't involved in it
24		and accordingly didn't really pay any attention to
25		it.
	İ	

Now, for the purpose of the Commission's work, I provided you with some documents and asked you to read some police reports and witness statements that the Commission has, they are from the police files in 1969 and from Mr. Caldwell's, in some cases from his files, and they appear to be at least documents and information that you did not have or did not have knowledge of, or may not have had knowledge of when you defended Mr. Milgaard in 1969 and 1970.

Now, some of the information in the documents are on what's been called the Gail

the documents are on what's been called the Gail
Miller police file; in other words, their original
police file, some are not. Some of the documents
are found on Mr. Caldwell's file, some are not. I
want to ask you some questions about the
information in these documents and, in particular,
whether, if you would have had this information,
it would have assisted your defence or altered
what you would have done at the time on behalf of
Mr. Milgaard, I will ask you what you would have
done with this type of information and how it may
assisted your work, and before we get into it, I
want to point out just a couple of caveats.

The first is that I appreciate

2

3

4

5

6

8

9

10

11

12

13

14

15

16

17

18

19

20

21

22

23

24

25

and point out that there is a vast amount of information that's before this Commission about what may have been in existence in 1969 and 1970 and the Commission has heard a lot of evidence to date about that, and I don't think it's fair or appropriate to ask you to go back and digest all of this information that you didn't know about and then come back 36 years later and tell us everything you would have done differently with all of that knowledge, but what I propose to do is provide you, and I have provided you with key pieces of information, and I'll try and summarize them for you and ask for your general insights as to what you think you would have done with the general information, keeping in mind that you've not gone through this in detail. The second caveat that I want to

The second caveat that I want to point out before I get into this area is that the issue of disclosure and what the police had, what the prosecutor had and what was and maybe should have been disclosed to you is a matter the Commissioner will deal with in due course based upon all of the evidence and after hearing all of the witnesses and I do not want to put you, by my questions, in the position of providing opinions

1 on the conduct of the police and/or the prosecutor 2 as to what they did or didn't do or should have 3 However, I would like to find out from you, 4 when we go through this information, putting aside 5 who had it or who could have given it to you, putting aside that issue, but whether the 6 information we go through is the type of information that you contemplated receiving when 8 9 you made the request back in June, July and August 10 of 1969 when we went through the letter and, in 11 particular, the Dallison case, whether this is the 12 type of information that was in your mind at the 13 time as being information that might assist you. 14 So with that, and I will go 15 through some of these documents, and I think, 16 Mr. Tallis, I can probably summarize some of them 17 fairly quickly. We, as a Commission, have been 18 through all of them to date and I think you've had 19 a chance to read them over at least once; is that 20 fair? 21 Α Yes, I read them over some time ago when it was 22 expected that I might be called at an earlier 23 date. 24 0 And so if we could call up, the first one is 25 106175, and this is a police report of February

2

23

24

25

Α

2nd, 1969 of Detective Sergeant Reid and this is two days after the murder, and this is just the one that mentions Mr. Campbell, the service station operator, and you alluded to this earlier, had actually phoned the police I think on February 2nd to report his encounter with the vehicle and Mr. Wilson, Mr. Milgaard and Ms. John on the morning of January 31 at the Danchuks, and again we have -- and in this they actually have the license number of the car, down here, if we can scroll down, further, so he actually phoned in, gave the license number of the Wilson vehicle and sort of explained to -- advised that of the three young, he says fellows in the car, he only saw one of them. "Reason that Mr. Campbell reported this

to our department is that he wondered

... what were they doing in the alley."

Now, again, is this, can you just tell us

generally, and forget whether you get the actual

report or you get the information, is this

information, do you think it might have been -
would you have used this in any way?

Well, I think it would have been helpful.

Okay. In what respect?

		1 age 24102
1	Α	Well, it could well lead you on a chain of
2		inquiry. Standing in isolation it maybe doesn't
3		look to be that significant in the way things
4		unfolded, but taken together, I think that with
5		other things it could have taken on additional
6		significance.
7	Q	And I suppose one might say that if Mr. Campbell
8		and/or the Danchuks were suspicious of this group
9		that they might have a keener eye of observation;
10		is that
11	А	Yes.
12	Q	If we can go to 009245, I'm going to go through
13		some reports now, and maybe let's, we can just

15

16

17

18

19

20

21

22

23

24

25

some reports now, and maybe let's, we can just deal with this a bit generally. There are a number of police reports prepared by the Saskatoon City Police that provide some detail of their dealings with Albert Cadrain, Nichol John, Ron Wilson and David Milgaard and in some cases, I think your words the other day were that some people provide statements through their mouth or words to that effect, and I think what we see in some of these reports, the police would write down what the main players would have said to them.

Generally speaking, would that, the information in reports about how the police

		•
1		dealt with Wilson, John, Cadrain and Milgaard, be
2		helpful to you?
3	А	Yes, it would.
4	Q	And can you elaborate on that a bit?
5	А	Well, as I said to you the other day, whether a
6		person chooses to write in statement form or write
7		with his or her mouth is still something of
8		importance because the information that is
9		imparted is the significant point.
10	Q	And now would it be fair to say that the
11		information may be both helpful and may be
12		damaging; is that
13	А	That's right.
14	Q	I just want to go through parts of this. This
15		first one is a report of Sergeant Malanowich and
16		this deals with Sharon Williams who was, I think
17		you were aware, was the young lady that David
18		Milgaard was going to see in Edmonton; correct?
19	А	Yes.
20	Q	And there's a lengthy statement. I think you've
21		had an opportunity to review the statement of
22		Sharon Williams?
23	Α	Yes.
24	Q	And then as well, and we've been through that a
25		number of times, I don't propose to go through it,

1		but again, Malanowich adds in this statement,
2		attributes that Mr. Milgaard:
3		" got violent and forced her and she
4		admits it is at these times that she
5		thought he was abnormal and a violent
6		type of person."
7		Again, that type of information in the Sharon
8		Williams' statement, if that had been provided to
9		you, can you tell us, would that have been of
10		assistance to you?
11	A	Well, it would assist in this way, it's the type
12		of thing you want to know in advance because it
13		tells you some aspects of the case that you may
14		have to meet, and I use the term "may have to
15		meet".
16	Q	And back on the question of again the Dallison
17		case, was this the type of information that you
18		contemplated you might get?
19	A	Well, if I the answer is yes, and I think that
20		information that enables a person to defend a case
21		covers both, anything that tends to show the
22		person's innocence, but also anything that might
23		be used against him or her.
24	Q	If we can go to 106640
25	А	And you see in this one too that she was asked to
		<b>4</b>

25

Q

look, to see if there was any blood on any of his clothing or anything and she looked in his suitcase at the motel and so forth, but I don't think there was anything of that nature observed.

Okay. I see it's -- actually, we'll do one more document, 106640, this is a March 22nd, 1969 report of Lieutenant Short and it talks about:

"On March 18/69 Det. Karst & myself took

Albert Cadrain to Regina and were in touch with the Regina City Police there and later proceeded to the Regina gaol and interviewed Ron Wilson again, however, nothing further was learned from him and we also found his home and talked to Mrs. Wilson where there was some discrepancies found in the clothing that these boys both Wilson & Milgaard were wearing when they left Regina. Also female Nichol John was located in the hippie house in Regina and she was after considerable persuasion brought to the Regina gaol and interviewed by Karst and myself and was placed in a room with Cadrain and allowed to discuss this matter and it was learned from her after

1		this discussion that through
2		interrogation that she was of the
3		opinion that Cadrain was telling the
4		truth and that everything he said was
5		exactly what had happened on this trip.
6		She was of the opinion that Milgaard was
7		of a dangerous character and that he had
8		forced her to have intercourse etc.
9		Several times and she was afraid of him.
10		It is my opinion that Milgaard is a
11		dangerous person and it is known that he
12		had a record as a juvenile for several
13		serious offences and although at this
14		time we did not locate Milgaard it is my
15		opinion that he should be located and
16		probably followed and kept under close
17		contact for some time in hopes of
18		learning something further in regards to
19		this person's activities while in S'toon
20		with Nichol John and Wilson."
21		Again, would that be information, Mr. Tallis,
22		that would be of use to you in your defence of
23		Mr. Milgaard?
24	A	Yes.
25	Q	And in what way?

1 Α Well, several aspects; number 1, it's indicative of the case that the Crown may try to present with 2 3 respect to his propensity for violence, if I may 4 summarize it that way, but more important, I think 5 that it also is relevant when you consider the background or circumstances under which Nichol 6 John and Wilson told the investigating officers various matters after having initially denied 8 9 there was any involvement by anybody in the car. 10 MR. HODSON: This is probably an 11 appropriate spot to break, Mr. Commissioner. I'm 12 wondering if we might come back at one o'clock 13 with the idea that we may still try to get 14 Mr. Tallis done today. 15 COMMISSIONER MacCALLUM: Yes. 16 (Adjourned at 12:01 p.m.) 17 (Reconvened at 1:07 p.m.) BY MR. HODSON: 18 19 Mr. Tallis, before lunch we were going through 20 some police reports and statements, information 21 that you did not have, and I was asking you some

questions about what you might have done with it.

If you can call up 009254. And again, this falls in the category of a police report that outlined their dealings with some of the key witnesses, and

22

23

24

this is Detective Karst, and I think I read earlier the one from Lieutenant Short about the trip with he and Mr. Karst, this is Mr. Karst's report, I'll just read parts of this. And again, so this is April 18th, '69, the report, and it talks -- actually, sorry, I may have misspoke, this is a different occasion than what Lieutenant Short was talking about.

So this is Monday, April 14th, would be a month after Nichol's first statement and about five weeks before the May 24th statement to Mr. Karst and Staff Sergeant Edmondson went to make inquiries about John and Wilson, if we can call out that paragraph, and this is Mr. Karst saying with the assistance of Ken Walters we located the Nichol John girl, interviewed and:

"Further investigation of this girl when she was interviewed gave one the feeling that she was telling the truth and she emphatically stated she could not recall any time while they were in the City of Saskatoon during the morning of the murder at which time Wilson or Milgaard had left the vehicle in which they were driving long enough to commit this

offence. She denied that Milgaard had left their vehicle at any time to go to a bathroom or go for a cup of coffee which she could recall. This girl did however state that she felt Milgaard was capable of an offence of this nature and admitted having sexual relations with him at different times and that he was more of the animal nature than you would expect of a human." And then next page, and this is again after

talking to, Ron Wilson's mother was interviewed, and:

> "She did however state, though that the both youths, Wilson and Milgaard had changed clothing at her residence on the night of Jan. 30 before leaving for Saskatoon, as they had spilled acid on them while working on the battery in the car in which they were trying to start."

## And then here:

1

2

3

4

5

6

8

9

10

11

12

13

14

15

16

17

18

19

20

21

22

23

24

25

"Although there are many unanswered questions with regard to Milgaard's activities on that particular morning, if one is to believe the girl, Nichol

1 John, and it appears that she is very convincing with her story, then there is 2 3 no way in which Milgaard can be connected with this crime." 4 5 Let me just pause there. I did cover two Let's talk about the latter one and subjects. 6 Nichol John. Would information in this police 8 report have been of assistance to you in 9 defending Mr. Milgaard? 10 Α I think it would have. And can you tell us how you might have used this 11 Q 12 type of information? 13 Α Well, for one thing, it might have led one on a 14 chain of inquiry into certain areas and also have 15 been relevant to the circumstances giving rise to 16 the later incriminating statements. 17 So in the section 9(2) voir dire hearing we talked 0 18 about yesterday, and I suppose if Chief Justice 19 Bence would have followed the procedure that the 20 Court of Appeal later set out in that type of voir 21 dire, is this something that you might have 22 elicited before the Court? 23 Α Yes, and I think it would have also been helpful 24 with respect to those circumstances where -- let's 25 put it this way, helpful in respect to probing the

1		role of Mr. Roberts.
2	Q	Okay. And then the information from Ron Wilson's
3		mother, and again we touched on this a bit
4		earlier, I think you may have had some inkling of
5		that when she was called at the preliminary
6		hearing; is that fair?
7	А	Yes.
8	Q	And I think you told us that this was not helpful
9		evidence because it suggested, if it was true,
10		that there would not have been acid on Mr.
11		Milgaard's pants
12	А	Yes.
13	Q	on the morning at Cadrains' house?
14	Α	That's right, and David said the only possibility
15		was that he might have had some spots arising from
16		battery acid.
17	Q	If we can now scroll down a bit, and here we talk
18		about on April 18th, it talks about Mr. Milgaard
19		being interviewed and giving blood samples and it
20		says:
21		"Milgaard was interviewed at length by
22		various members of this department
23		however seems to be no way to shake that
24		youth's story. He denies emphatically
25		having any blood on his clothing when

changing them and when confronted with the statement that Cadrain stated he did have blood on his trousers he stated that Cadrain was a lyer."

Would that information have been helpful to you?

Well, this is the kind of information that you

like to have because you never -- you never know

what it will lead to, but certainly it is

background information that one would want to

have.

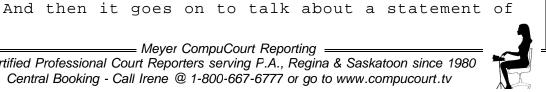

And then if we can scroll down a bit:

Α

"With regards regards to the above information it now appears that further questioning of Cadrain is warranted with regards to the blood as both youths Milgaard and Wilson along with the girl, Nichol John deny that Milgaard had any blood on his clothing, while Cadrain emphatically states that he observed this blood. There is also the fact to take into consideration that when the Cadrain youth first attended at the Police Station some becomes ago to advise us of his information he denied that he knew anything of this murder in

1 Saskatoon until he returned home approx. 2 1 month later when his mother advised 3 him of same. However this was found to 4 be untrue when speaking to the Regina 5 City Police we were advised by them that they had advised Cadrain of this murder 6 and in fact questioned about same when 8 they had him in custody at that point 9 some 2 weeks prior to coming to 10 Saskatoon. Also it should be noted that the dead girl's wallet and contents were 11 12 found near the Cadrain residence which 13 could be implicating for either Cadrain 14 or Milgaard in that case as they were 15 both known to be in the area." 16 And then a blood sample was taken, and the next 17 page: "Effort should be made in the near 18 19 future to interrogate both or all 3 of 20 the Cadrain youths along with the 21 parents to ascertain whether their 22 stories coincide when all are taken at 23 separate times and apart from one

another."

24

Leonard Woytowich. Would that type of information have been of assistance to you, Mr. Tallis?

Α

Yes, and I particularly note the comments with respect to Cadrain knowing, or having been informed about certain aspects of this matter, and although he did indicate at trial that he, that he was trying to tell the truth when he first spoke to the police and denied any involvement, this type of thing would have opened up a much greater scope for cross-examination at the preliminary hearing without tipping your hand, so to speak, in certain areas.

If we can go to 009264, this is a May 25, 1969 police report from Detective Karst and it details events starting on May 21 in Regina. This report details Detective Karst's dealings with Ron Wilson primarily on the dates May 21, 22, 23 and I believe 24, so that would be the two days prior to Inspector Roberts, the day of and the day after, although I'm not sure that it covers the day after, so before we go through it, I take it generally speaking a police report dealing with how Ron Wilson was dealt with during that time frame that he was with Inspector Roberts, would

		<b>o</b>
1		that be viewed
2	А	Yes.
3	Q	as important? So here we have:
4		"On Wednesday, May 21st, D/Sgt. Mackie
5		and myself and Cst. Walters attend at
6		1769 Cornwall Street where Nichol
7		John's Social Worker was interviewed."
8		Nichol John, I think referred to Nickey.
9		"The interview was taped for further
10		use, and although the Social Worker
11		interviewed "Mr. Don Robertson", stated
12		there were certain interviews he had had
13		with this girl since he has worked with
14		her, since the time of the alleged
15		offence in Saskatoon, which is of a
16		confidential nature, he is not prepared
17		to divulge to us, he, however, did say
18		that she stated she was not personally
19		involved in a murder."
20		Again, would that type of information be of
21		assistance to you?
22	А	Yes.
23	Q	And in what way?
24	A	Well, once again, it was background information
25		that, depending on the contents, might well give
		1

1		rise to at least a probing at the preliminary
2		hearing to see what would be of value for use at
3		trial, and often the well, I'm sorry, I'm
4		thinking I'm getting ahead of myself.
5	Q	You are talking about the Ron Wilson?
6	Α	Yes.
7	Q	We'll maybe scroll down so we have starting
8		here at the top of the page, please, so:
9		"At 2:00 PM, May 21st, Ronald Wilson was
10		interviewed"
11		And Mackie, Walters, Dike were present along with
12		Detective Karst:
13		"This conversation also being taped and
14		presently in my possession.
15		During this conversation with
16		Ronald Wilson, he admitted attending in
17		Saskatoon with Milgaard and Nickey on
18		the early morning of January 31st and in
19		contradiction to his original and other
20		interviews, he admitted that Milgaard
21		had left the car when they became stuck
22		at approx. 6:45 that morning, while
23		looking for the Cadrain residence. All
24		Wilson would state at this time was that
	Ĭ	

Milgaard appeared to be puffing and

running, slightly out of breath when he returned to the vehicle, and he admitted that he had since thought that this was the time that Milgaard was probably involved in a murder."

Would that information be of assistance to you, Mr. Tallis?

Yes. Well, my attention is particularly attracted to the fact that this oral statement was recorded and the tape recorded conversation would probably not only be in more detail than the actual report, but also indicate whether it was question and answer or narrative, and of course that would be very helpful depending on its contents for purposes of, at least of cross-examination at the preliminary hearing. What use could be made at trial would depend upon what was elicited during that phase.

And then the next page at the top:

"En route to Saskatoon, Wilson divulged to me that on that trip on Jan. 31st with Milgaard and Nickey the two boys had discussed B.&E.'s, along with rolling someone and purse snatching as a source of money, as their financial

1 position at this time was not one with 2 which they could do any amount of 3 travelling, as they anticipated going to Edmonton and Vancouver." 4 5 And then it goes on to talk about the elevator break-in, he says he does not recall a knife 6 missing from the premises, and I think this is where the police first learned of the elevator 8 9 break-in. Would this type of information have 10 been helpful to you? Well, I think that it's the type of information 11 Α 12 that would be useful for the reasons I've already 13 given. 14 If we could scroll --Q 15 I of course knew about some of this, but it was Α 16 from David's perspective and statements to me. 17 So scroll down here, so this is now on the trip 0 18 back from Regina, so this would be May 21, which 19 would be two days before his statement of May 20 23rd, he says: 21 "He also stated at this that he could 22 not recall a knife being in the car nor 23 did he see Milgaard bring one from the 24 elevator. On further questioning, he 25 thought that possibly Milgaard could

1 have picked up a knife from the Champs 2 Hotel where they had eaten earlier that 3 day where Nickey had been employed, however, could shed no further light on 4 5 that aspect." Would that information be helpful to you? 6 Yes, essentially for the reasons that I've Α mentioned. 8 9 Scroll down. 10 "Wilson pointed out the area of Avenue P 11 and Avenue M and N around 22nd St. West, 12 as an area which is similar to the 13 location where the girl was seen walking 14 on the street that early morning when 15 they approached her to ask directions, 16 however, he was unsure of the exact 17 block. Nor could he point to the exact location where the car had become 18 19 stalled, where Milgaard had left the 20 vehicle to go for help." 21 Again, would that information have been helpful? 22 Yes. 23 Next page. So then this is the next morning, May 24 22nd, the day before the polygraph, and they drive 25 Mr. Wilson around the city or parts of the city.

And then:

"Wilson's account of what transpired that morning was roughly as follows. The three of them drove into the city and drove around for a short while when they met a girl in the area described above, asked directions for Peace Hill. The asking done by Milgaard who was on the passengers side of the vehicle where the pedestrian was. This girl stated she didn't know and was unable to assist them, however, Milgaard had asked whether she would like a lift or ride to where she was going, to which she declined. Upon driving away, Milgaard had made the remark to the effect, "The stupid bitch". They drove a short distance further and while making a turn, the vehicle became stuck, as they had no reverse gear. At this time Milgaard left for help, returning approx. 15 minutes later puffing and running, however, Wilson states that he saw no blood, etc., or anything on Milgaard at this time."

1 They drove around the city, got the map, and then 2 went to the Danchuks. Now, again, would this 3 information be helpful, Mr. Tallis? 4 Yes, for the same reasons that I've mentioned. Α 5 Go to the next page. We're now to Friday, May Q 23rd, which is the day of the polygraph. 6 Mr. Karst writes: "... I attended at 608 Cavalier Hotel in 8 9 the company with Inspector Wood, Lt. 10 Short, D/Sgt. Mackie, Cst. Chartier and Morrison and at 3:00 PM, I called at 11 12 room #610 of the Cavalier where Wilson 13 picked out a knife which was out of a 14 group of five, which Insp. Roberts had 15 shown him as being similar to the one he 16 states he had seen en route from Regina 17 to Saskatoon on the morning of Jan. 18 31st, this being a reddish brown colored 19 bone handled type paring knife. 20 Wilson was then brought to the 21 Police Station and at 3:30 PM, a 22 statement was taken from him with 23 regards to the above described incident 24 adding to the original that he had seen

1 which he previously denied. Also added 2 in his statement was that when Milgaard 3 returned to the car after being stuck, the first time, he stated something to 4 5 the effect that, 'I fixed her', and when Wilson questioned him on this Milgaard 6 declined to make any further comment. 8 Also in this statement Wilson 9 states he had seen blood on Milgaard's 10 trouser when changing his clothes ... This he had previously denied." 11 12 Next page, I'll just highlight some of the parts 13 here, he talks about: 14 "Nickey seemed very nervous ...", 15 Wilson -- and actually what Mr. Karst is doing 16 is, I think, reciting parts of Mr. Wilson's May 17 23rd statement which we have been through: 18 "... also recalls Nickey finding a 19 ladies compact ...", 20 the statement goes on to talk about the incident 21 in Calgary. Again, let me pause there. 22 that information have been of assistance to you 23 in the defence of Mr. Milgaard? 24 Well this was particularly of significance in 25 connection with probing of the role of Mr.

		1 age 24723
1		Roberts.
2	Q	And in what regard, what can you
3	A	Well I'm thinking of it in the context of the
4		additions that had been made by or further
5		details that had been given by Wilson, for example
6		in the discussions, and
7	Q	And for
8	A	And of course, if this was tape recorded, the
9		whole manner of the taking of the statement and
10		what was actually said would have been very
11		significant from the standpoint of preparing for
12		the preliminary hearing.
13	Q	At the trial did you, and/or at the preliminary
14		hearing, were you aware, apart from the written
15		statements that Ron Wilson provided of May 23rd
16		and 24th, 1969, and apart from what you elicited
17		from him or other witnesses; were you aware of the
18		sequence of the interviews and what Mr. Wilson may
19		have told the police officers on given dates or
20		given times both before and after the polygraph
21		session?
22	А	No, I don't believe I was. This was something
23		that I tried to elicit the details from Mr.
24		Roberts about what, you know, his actual
25		participation or what he actually did and but $\P$

we've already been through that so I don't want to 1 burden you again with it. 2 3 And this is the May 29th report of 4 Sergeant Mackie who dealt primarily with Nichol 5 John on May 22, 23, 24. There's parts of this: "... May 22nd, Nichole John was returned 6 to Saskatoon ...", 8 and goes on to talk about her, was: 9 "... transported to 20th Street ... 10 where she was driven around the area and she stated that she recalled the brick 11 12 wall on the east side of the ... Funeral . . . " , 13 14 home, recalled two garbage cans where the purse 15 was found, this is where she says that the lid on 16 the left-hand garbage can was tipped, she also 17 recalled something of the church, and then driven around. And then, actually, just scroll down a 18 19 bit further. Again, would that, the driving 20 around, would that information be of assistance 21 for the reasons you stated the other information? 22 Yes. 23 And then at the bottom: 24 "At approx. 10:00 PM, I proceeded to the 25 Cavalier Hotel where Supt. Wood, Lt.

1 Penkala and I interviewed Insp. Roberts 2 of Calgary Police, in regards to this 3 file, so that he would be able to interrogate Ronald Wilson and Nichole 4 5 John for us on the 23rd." Would that have been helpful information? 6 Α This would have been very relevant to the information I was trying to get from Inspector 8 9 Roberts. 10 0 If we could now go to 106108, please. I'm going to now move to matters not related directly to the 11 12 David Milgaard witnesses, if I can call them that. 13 This is a January 31st, it should be 1969, police 14 report, it's the day of the murder, and Constable 15 Gabruch talked to the bus driver that morning for 16 the bus that Gail Miller normally took, and: 17 "... Husulak ...", the bus driver: 18 19 "... stated that around Ave. O and 20th 20 St. he would ordinarily have a male 21 passenger at Ave. O and 20th St. who 22 appeared to be a construction worker 23 wearing red hat and approx. 20 years 24 old, however this morning the gentleman

was not around."

1		And if we can go to 106189. That information;
2		would that be something, on its own, that might
3		be of assistance to you?
4	A	Well I think, in combination with other things, is
5		certainly would be a matter of interest.
6	Q	This is a report of February 3rd, Detective
7		Sergeant Reid, so on the Monday at 6:50 he
8		interviewed the bus driver:
9		" regarding a construction worker
10		wearing a red hat. Mr. Husoluk states
11		the person got on the bus just the past
12		trip and made a mistake as the person
13		was wearing a red ski cap and not a red
14		hat. This person according to the bus
15		driver was checked out by Det.
16		McCorriston this date."
17		And then if we can go to
18		106212, and this is Detective McCorriston's
19		report about the events of February 3rd as well,
20		and they did, at 6:17 that morning they checked
21		out Avenue O and 20th, one Tony Humen.
22		"Humen was identified by transit driver
23		John Husulak as the person he had
24		referred to as the person who usually
25		wears a red or orange hard hat and who

1		he believes had not caught this bus on
2		Jan. 31st. Humen at this time was
3		wearing a red ski cap and stated he
4		never wears a hard hat.",
5		and then goes on to talk about the interview.
6		Again, would that information be of assistance to
7		you?
8	A	Yes, it would be. You know, coupled with other
9	A	information it could well be helpful, and
10		particularly, with background information like
11		
		that, you could pursue certain avenues of
12		questioning.
13	Q	And the next page, 106213. This is the same
14		report and the same morning, McCorriston writes:
15		"6:49 checked in 300 Blk. Ave. O.
16		South, Larry Fisher, 334 Ave. O South.
17		Works at Masonery Contractors
18		Wearing yellow hard hat. Stated last
19		Friday he caught bus at 6:30 a.m. at
20		Ave. O. and 20th. Street. He states
21		there waas no one else around at that
22		time and he had no information to
23		offer."
24		Now, we now know more about Larry Fisher than
25		they might have known on the morning of February
		4

А <b>Q</b> А <b>Q</b>	3rd, '69, but would that information be of assistance to you at that time?  Well the address or place of residence, I think, could well have triggered a chain of inquiry.  Being the same address as the Cadrain  Yes.  house? And what about the fact of catching the bus that morning at
Q A Q	Well the address or place of residence, I think, could well have triggered a chain of inquiry.  Being the same address as the Cadrain  Yes.  house? And what about the fact of catching the
Q A Q	could well have triggered a chain of inquiry.  Being the same address as the Cadrain  Yes.  house? And what about the fact of catching the
A Q	Being the same address as the Cadrain Yes house? And what about the fact of catching the
A Q	Yes house? And what about the fact of catching the
Q	house? And what about the fact of catching the
A	bus that morning at
А	
	Well, as well.
Q	Okay.
А	But I think the initial link would, in one's mind,
	would probably be the address.
Q	If we can go to 106215. Sorry, 106215, the doc.
	ID is 212. And this is a report of Detective
	McCorriston, and this is February 5, which would
	be five days after the murder, 6:55 a.m. in the
	200 block Avenue N South, and we know:
	" interviewed Mrs. Margaret Merriman
	of 226 Ave. N. South"
	And her house, Mr. Tallis, would be right beside
	the east-west alley. The east-west alley behind
	the funeral home, if you go a bit further east,
	her house would be on the corner of Avenue N and
	that same east-west alley; do you
	Yes.
	Q

1	Q	I can show you the map if you like, but it would
2		be
3	A	No, no, I accept what you say.
4	Q	And it says:
5		"On the morning of Jan. 31/69 she
6		ordered a taxi to be at her home at 6:55
7		A.M. and watched out her front window
8		for a few minutes while awaiting the
9		arrival of the taxi, however she saw nor
10		heard anything and was unable to offer
11		any information."
12		And then, just in that
13		connection, 025148. And this is a March 27th
14		report by Detective Sergeant Reid, and this is
15		interviewing Mr. Arthur Merriman, Mrs. Merriman's
16		husband. And he says:
17		" on Jan. 31st, 1969, they left for
18		work by Taxi, leaving at approx. 6:55
19		AM. It should be noted that this
20		persons' residence they can look down
21		the T lane rear of Westwood Memorial and
22		Mr. Merriman advises that his eyesight
23		is not too good but they were looking
24		out this window waiting for the taxi to
25		arrive and nothing unusual was observed

pertaining to persons or vehicles, and

'		percarning to persons or venicies, and
2		Mr. Merriman is unable to offer any
3		further additional information which may
4		be of assistance to us in connection
5		with this occurrence and at the time he
6		was interviewed his wife was not at
7		home."
8		Would that information from the Merrimans have
9		been of assistance to you?
10	A	Well I would say, looking at what I knew and what
11		I was looking for, that this statement is of
12		particular significance because of the time factor
13		that we've already been going through.
14	Q	And, as well, perhaps where they were where
15		their house was located?
16	A	Oh yes, well, I'm making that assumption
17	Q	Yes.
18	A	that
19	Q	If we could go to 024936. I'm sorry, the doc. ID
20		is 935, this is the second page. And this is a
21		report of Detective Sergeant Mackie, and this is
22		talks about Dennis Elliott, and this may have
23		been in his statement and it may have been that
24		you were aware of this, Mr. Tallis, but I'll just
25		read you this part. Dennis Elliott was the fellow
		<b>1</b>

1 who drove Gail Miller home the night before her 2 murder, and he says: 3 "... he recalls that when he had taken Miller home he recalled a 1963 or 64 4 5 Pontiac with redist bottom, light colored top, with considerable damage to 6 left rear fender or quarter panel. 8 There was a lone occupant in this 9 vehicle who watched them and when he 10 looked towards this vehicle the man in 11 the vehicle looked away quickly. 12 knowledge Gail was not aware of this 13 vehicle. After he walked Miller to the house at 130 Ave. O. S. this vehicle was 14 15 still present and the operator watching 16 him when he returned to his vehicle, and he felt that he was about 10' away from 17 18 this person on the street when he 19 returned to get into his vehicle." 20 And described the male person there. 21 recall if you would have been aware of this piece 22 of information at the time of trial? 23 Α I don't recall if I had a statement from Dennis 24 Elliott or not. 25 Do you recall any mention of the fact that there

1		was a car in front of Gail Miller's house at 2:00
2		in the morning the night before the murder?
3	A	You know, I think that I may well have, but the
4		source I can't tell you at this stage.
5	Q	Okay. I think we saw some documents where Mr.
6		Caldwell sent you Mr. Elliott's statement, and I
7		
8	A	Well that's what I, that's why I was asking, I may
9		well have received the statement and that's where
10		it would come from then.
11	Q	009334. This is a report of Officer Dimmitt's
12		February 6th. It talks about one Simon Doell,
13		former address, etcetera:
14		"He moved out previous to the murder.
15		He states that on occasions he had been
16		riding on the Bus and when Miss Miller
17		got on the bus she always as on the
18		corner of Ave. N and 20th St. directly
19		across from the Funeral Home. He states
20		that he missed her on the bus a couple
21		of times and upon asking her how she was
22		getting to work she stated that she was
23		getting a ride to work"
24		And, again, this talks about her catching the bus
25		at Avenue N

1	A	Yes.
2	Q	and 20th Street; would this information have
3		been of any assistance to you?
4	A	Well, once again, it was background information
5		that might well have been of assistance.
6	Q	106234, this is a report of Detective Bennett
7		February 6th, '69, and it says:
8		"Also interviewed was a Mary Gallucci
9		who stated that she takes the bus at
10		Ave. O and 20th Street every day. She
11		stated that on Thursday morning, Jan.
12		31st,",
13		and I think, from some other notes it, I think it
14		has been suggested that the date should have read
15		January 30th:
16		" she recalls a girl get on the bus
17		at the above with her. She describes
18		thais girl as follow Younger girl, dark
19		hair, wearing white dress and stockings,
20		Dark coat",
21		goes on:
22		"She has seen her on the same bus before
23		but does not think seen on Wed. There
24		was also a young man get on the bus with
25		who was a construction worker

1		wearing blue jeans and a hard hat,
2		possibly yellow. This man comes from
3		Ave. O South of 20th Street. He has
4		been getting on the bus at the same time
5		since that day. She does not think that
6		she could identify."
7		Again, would that information have been of
8		assistance to you?
9	А	Yes, I believe so, for the reasons that I have
10		earlier mentioned.
11	Q	Now 106547, please. This is a report of Constable
12		Wilton February 15th, 1969, and it refers to a
13		phone call from a fellow named Sidney Sargent, and
14		you have had a chance to read through this, Mr.
15		Tallis. And this is a fellow who called the
16		police and states that:
17		" on the morning of the murder he
18		left",
19		his office at $7:00$ a.m., drove north on Avenue N
20		to 20th where he had to come to a stop, said to
21		be between 7:00 and 7:05.
22		"He observed a woman standing at the bus
23		stop at the south curb wearing a blue or
24		what appeared to be a blue coat similar
	I	

This woman also wore

to a nurse's cape.

1		white nylons, a white dress, and may
2		have been wearing a hat. Before
3		proceeding from the stop sign Sargent
4		states he saw a young male person, age
5		18-20 years, staggering in a southerly
6		direction on Ave. N towards 20th St. He
7		described the person as approx. 6'2",
8		skinny, blondish hair. He wore blue
9		jeans and a kacki coat. The youth was
10		staggering as though drunk however may
11		have been walking in this manner if he
12		had been wearing leather shoes. Sid
13		Sargent did not pay any more attention
14		to the 2 persons and then drove away.
15		He delayed contacting the Police on this
16		matter as he believed the information
17		was of little importance."
18		Can you tell us whether this information would
19		have been of assistance to you?
20	A	Well, I think that that could well have been very
21		significant
22	Q	Can you tell us how?
23	A	I was just
24	Q	Oh, sure.
25	А	Did he identify

1	Q	And I should sorry I should add that
2		Mr. Sergeant, after this report, did not talk to
3		anybody about this matter until he testified at
4		the Inquiry, and he advised the Inquiry that he
5		identified the woman as Gail Miller, whom he had
6		known. And I think he also described before the
7		Inquiry that her that she was a, not right at
8		the corner, a bit away, and as well that
9		something unusual about her clothing, and I can't
10		recall exactly what he said, but something about
11		how her clothing was arranged. So there's nothing
12		in the report other than the identification of a
13		nurse's cape or yes, of a nurse's cape, so
14		there's nothing in the police report that says he
15		identified the woman as Gail Miller, however when
16		he testified here he did.
17	A	Yes, well you probably mentioned that to me, but
18		this, to me, would be something quite significant.
19	Q	Can you explain how you might have used this or
20		what you might have done with it?
21	А	Well a great deal would have depended upon what
22		Mr. Sargent actually said, and with the additional
23		information that you have been able to dig up,
24		that, of course, would focus on the location of
25		Miss Miller at least before she was killed.
	Ĥ.	

And I take it that, if you were able to have

Q

		·
2		someone observing her at the corner of Avenue N
3		and 20th Street between 7:00 and 7:05 a.m. alive
4		and standing at the corner, that that might
5		eliminate Mr. Milgaard as a suspect?
6	А	Yes. It supports the time element that we've
7		talked so much about and, given the even narrower
8		time frame, I think it strongly supports the
9		impossibility, or at the very least improbability,
10		of him doing anything to her or, indeed, having
11		anything to do with her.
12	Q	Okay. And if we put aside and take just what's in
13		the police report at the time, and putting aside
14		the fact of what he has told this Commission of
15		Inquiry now, if it was simply that he had
16		identified a woman wearing a blue, or what
17		appeared to be a blue coat similar to a nurse's
18		cape, etcetera, just with that description without
19		the further identification of it being Gail
20		Miller, would that information have been of
21		assistance?
22	A	Yes. Well the clothes that are mentioned there
23		would certainly indicate the nature of this girl's
24		occupation and would, I think, spawn a potential
25		link with the victim in this case.
	Ï	

1	Q	Okay. I now want to move to some sexual assaults
2		and indecent assaults, and this Commission has
3		heard a fair bit of evidence and we've gone
4		through all these statements and, in fact, heard
5		from some of the victims, and what I have done for
6		you, Mr. Tallis, is I have provided you with the
7		statements of these victims and asked you to read
8		them. And I've categorized them in three
9		categories, and this is how I wish to go through
10		them. The first set are the, what I call the
11		non-Fisher indecent assaults, and they are the
12		assaults that or attempted assaults that
13		occurred in and around January 1969 that were on
14		the Gail Miller file, none of them identified
15		Larry Fisher as the assailant, and in fact I think
16		when looking at the descriptions in those assaults
17		and at that time I think the evidence we heard
18		that Larry Fisher wasn't known as the assailant of
19		the other rapes at that time but certainly
20		those rapes have never been visited upon Mr.
21		Fisher, he has not been convicted of them, and I
22		think in fact he denies them. So there is the
23		non-Fisher assaults, if I can call them that.
24		The second grouping is the
25		(V4) $(V4)$ assault which occurred on the

1		same morning of the murder, again which Mr. Fisher
2		has not been convicted of or charged with.
3		(V4) $(V4)$ has for some time, including at
4		this Commission of Inquiry, testified that Larry
5		Fisher was her assailant, Larry Fisher has denied
6		that, and so again no charges there.
7		And the third group are the four
8		assaults, sexual assaults, one indecent assault,
9		that Larry Fisher confessed to and was convicted
10		for, and those are the (V1)-, (V2),
11		(V3) assaults that occurred before Gail
12		Miller's murder, and the (V5) (V5) assault
13		that occurred after the murder. And there is a
14		publication ban in effect for the names of the
15		victims, Mr. Tallis, so we are free, in this room,
16		to use the names, they will not appear on the
17		record or outside this room. And so you have had
18		a chance to go through those and look at them;
19		have you?
20	A	Yes, you provided the material to me
21	Q	Yeah.
22	А	and I read it over. I'm sure I didn't read it
23		over with the degree of care that you have read it
24		over, but I'm generally familiar with those
25	Q	Sure.

1	A	reports and statements.
2	Q	So I want to deal first with what I call the
3		non-Fisher assaults, and the first one is the
4		(V9) one of 106111. And, again, we have been
5		through these a number of times so I'll just touch
6		on the high points so that you know we're on the
7		same page as to what we're talking about. This
8		was an assault, and it's actually reported on
9		January 31, '69 these are all, I think, on the
10		Gail Miller murder file and it would appear that,
11		after the murder, some of these women called the
12		police in light of the Gail Miller murder. And:
13		" about 2-3 weeks ago his wife had
14		been indecently assaulted by a young man
15		while she was walking in mid block on
16		Ave Q between 22nd and 21st Sts., the
17		time was approx. 7:30 to 7:45 a.m.
18		Description of youth is that he
19		was wearing a blue parka with the hood
20		up and he was approx. 5'5" tall.
21		Mr. (V9) said that they had
22		not made any complaint to the police
23		about this matter but thought this
24		should be given to the police now as
25		information in their investigation of

1 the murder which had since taken place." And again, if we can just go to 106249, this is a 2 3 bit more detail, and it's probably easier to go to this than the statement. And it talks about: 4 5 "... the 100 blk. Ave. Q. S., she was 6 approached by a young man who grabbed her by her arms from behind and ran his 8 hands over her body at which time she 9 struggled and hit him in the face with an elbow and he then ran." 10 11 And so again perhaps, Mr. Tallis, I can just go 12 through all four, then come back and ask you some 13 general questions, or do you want to deal with 14 them one by one? 15 Α No, I think you can, you know, go through them and 16 then deal with them generally. 17 The next one is 024891, are you able to get 0 Okay. 18 024891? Actually, we'll bring up her statement, 19 006486. This is the (V6)--- (V6)- statement, the 20 statement is February 18, 1969, and it's an 21 incident at the Hi-Low Mart, which is over in the 22 Greystone area just off of 8th Street. A fellow 23 came up -- and I'll just quickly go through this: 24 "... came up from behind me. He was so 25 sudden I never heard him. His first

1 approach was to grab me by the private 2 part." 3 I then said don't -- or he then said: "... I don't want to hurt you. 4 5 were the only words he said." And then to the next page. I think there was a 6 bit of a struggle and then he ran off. Actually, there is a -- scroll down, please. I think there 8 9 was a struggle, felt a bump: 10 "... I then screamed as loud as I could. 11 My assailant then got an arm around my 12 throat. At this time the man in the car 13 came running around the corner and 14 My assailant now took his arm stood. 15 away and sort of had a hold of my coat 16 by the side." 17 Next page. And then I think that he went off. 18 Go to the next page, description here; eyes, 19 large and dark; complexion a little dark or 20 olive; black; 5 feet 2 inches to 5 feet 6 inches; 21 middle 30s, may have had a thin moustache. 22 Next if we can go to 106191, 23 and this is a report relating to (V11) (V11)--, 24 complaint regarding a suspicious man following 25 her, described as wearing a siwash sweater, about

30 years old, approximately five foot nine, and I think that is the -- right, that is the last of those.

So you've had a chance to look at those. Can you tell us whether those statements in and of themselves, put aside the other sexual assault information that we're going to come to with respect to Mr. Fisher, but these assaults, this information, would you have been able to use this in any way?

Well, I've thought about it in the light of what you asked me and trying to assess it as objectively as I can, I think that this is information that one would possibly set you on a chain of inquiry, but either standing alone or collectively but excluding the other items, I'm not sure that one could have been successful in having that evidence admitted to show that this crime was probably committed by a third person, albeit one who is not identified. I wouldn't rule it out, but I don't want to elevate it to something that may not have been admissible on an application. Now, I can go further than that --

**Q** Sui

Α

Α

-- but I think it would be better to deal with it

1		in the context of the others.
2	Q	Sure, we'll maybe come back to that when we get to
3		the other assaults.
4		I now want to deal with the
5		(V4) $(V4)$ matter, 106110, and this is the
6		January 31, '69 report. We've had we've been
7		through this a number of times at the Commission
8		and Ms. $(V4)$ testified, but she said that at
9		7:07 a.m. on the morning of January 31, 1969:
10		" she was on her way to catch her bus
11		on 22nd St. to the University she was
12		assaulted by a male person. This person
13		came out of a yard (after taking her
14		back there) 201 Ave. H So., and walked
15		towards her."
16		And I think it's seven blocks from where Mr. Gail
17		Miller's body was found is where she identifies
18		it.
19		"This male person then grabbed her and
20		ran his hand up and down her legs. She
21		screemed and this person then moved
22		back. She had laid or thrown her books
23		down and she picked them up and
24		continued on North to 22nd ST., She did
25		look back and he was following her. She

quickened her pace and the next time she

And then her description is -- scroll down, please -- not young or old, possibly near 30 years of age, height five feet five inches or six inches, and etcetera, black or dark hair, not too long, wearing a three-quarter or one-half length suede coat, dark brown in colour. Coat could have had a fur collar.

And then if we can go to her statement, 006404, this is her statement of the same date, she describes the incident again at 7:07 a.m., and I think her evidence before the Inquiry was that she had -- actually, maybe I'll just scroll down. She says I was walking -- no, go back to where you were, please.

"I had just checked my time so know it was 7:07 a.m."

-- when the assault, or shortly before the assault, and you've had a chance to look at this and consider it, Mr. Tallis. Can you tell us whether this information would have been of assistance to you in the defence of Mr. Milgaard? I think it would, particularly in the light of what I now know about the other ones that you are

1		shout to dool with but this one may stand on a
		about to deal with, but this one may stand on a
2		slight I would have argued, I think, that this
3		one stands on a slightly different basis, and that
4		is that it involved an assault on this bitterly
5		cold morning at the time that she mentioned and I
6		think it might well have been admitted as sort of
7		a free-standing piece of testimony, if I may use
8		that term. I realize there could well be an
9		argument over it, but reflecting on it, as you
10		have asked me to, I think that that is a tenable
11		argument, and having regard to the circumstances,
12		including the location and the weather conditions
13		on the day in question, we get put it this way,
14		I'm not attempting to be an expert in statistical
15		causation or anything like that, but if you have a
16		sexual predator at that time, and one would have
17		no reason to doubt this lady's description, one
18		could argue that the likelihood of having two
19		sexual predators in the same area who conducted
20		themselves in this way on a bitterly cold morning
21		in January raises some very serious questions.
22	Q	And is it evidence that you think you would have
23		tried to put before the jury then for that
24		purpose?
25	A	Yes, bearing in mind the additional items that I

		——————————————————————————————————————
1		know you are coming to.
2	Q	Right.
3	A	Very much so.
4	Q	And can you tell us how you might have argued to
5		the jury that this might exclude Mr. Milgaard or
6		raised a reasonable doubt about his guilt?
7	A	Well, there's no suggestion that he was the
8		attacker, and the manner of this attack, the time
9		of it and the general location I think would be
10		relevant considerations to raise.
11	Q	Can you tell us how
12	A	But I think that knowing what I now know based on
13		what you have shown to me, I would view this as
14		part of the package that you showed it to me
15		that you showed to me.
16	Q	Right. And you are referring to the rapes that
17		Mr. Fisher was convicted of?
18	A	Yes. You've mentioned their names, (V1)-,
19		(V2), and is it (V5)?
20	Q	Yes.
21	A	Okay. Those are the ones I'm thinking of in
22		particular.
23	Q	Can I just ask you to comment on one point on the
24		(V4) $(V4)$ statement that we've heard some
25		evidence and some different views on and how you
		3.

1		might have dealt with the time factor. If her
2		timing is correct, at 7:07 a.m., and the window of
3		opportunity I think for the death of Gail Miller
4		think was 6:45, or perhaps 6:50 to 7:05 I think is
5		where we got it, do you foresee, or how would you
6		have dealt with that? In other words, if you are
7		saying to the jury when Mr. Milgaard was in the
8		vicinity he did not have enough time to have
9		committed this thing, can you tell us how you
10		might explain to the jury that this other
11		perpetrator could have committed both?
12	А	Well, so much would depend on what Miss (V4)
13		said in testimony at the time and of course the
14		accuracy of watches or whether they are out a
15		little and so forth would enter into it, but as I
16		say, coupled with the others, I think it would
17		make a much more compelling case for its
18		admission. I think the key would be getting the
19		testimony admitted on behalf of the defence or,
20		better still, persuading the Crown to call it once
21		you became aware of it.
22	Q	Would the statement of $(V4)$ $(V4)$ and the
23		information in the police report, was that the
24		type of information that you contemplated
25		receiving when you made your request back in June,

1		July and August of 1969 for information from the
2		Crown?
3	А	Yes, it would be, because that type of information
4		could be very helpful in defending a case and
5		pointing to the innocence of the person charged.
6	Q	If we can go to 039527, we'll now go to the, I
7		call them the Fisher assaults, they are the four
8		that three sexual assaults and one indecent
9		assault Mr. Fisher confessed to and pled guilty
10		to. 039527. And this is a newspaper article of
11		December 14th, 1968 and the dates of the there
12		were three assaults before Gail Miller's murder, I
13		think the dates were October 21st, November 14th
14		and November 28th I believe, or in that time
15		frame. The first two were actual rapes, the
16		one and those two rapes were on Avenue O,
17		Avenue F, in that area, and 18th Street. The one
18		at the end of November, the (V3) one, was an
19		indecent assault over by the university area, and
20		this is a newspaper article talking about a
21		warning to women not to talk to strangers and
22		says:
23		" after two instances of alleged rape
24		and one assault were brought to their

attention ... took place in the

		<b>o</b>
1		Riversdale area and the assault took
2		place in the university district.
3		They said the alleged assailant
4		first talks to women and then takes them
5		into alleys."
6		Do you have a recollection of being aware of this
7		news article at the time?
8	А	I have no recollection of having read it or having
9		it brought to my attention.
10	Q	If you can take your mind back to again the time
11		you were engaged by Mr. Milgaard and going through
12		those proceedings, and in fact let's say the six
13		months prior, do you have any recollection of
14		being aware of these rapes having occurred?
15	A	No, I don't.
16	Q	Would you as defence counsel in the bar would
17		these matters be discussed or how prevalent
18		would matters like these rapes be in the
19		community? Are you able to shed any light on
20		that?
21	A	Well, I certainly don't recall any talk about
22		them.
23	Q	What about
24	А	And
25	Q	Oh, I'm sorry.
		4

		r age 2 m e r
1	А	And I recall, you know, after I was retained
2		making inquires, general inquiries, and
3		particularly of one person who, because of his
4		background, seemed to know most everything that
5		was going on over there, didn't, in any way
6	Q	Over where?
7	A	On the west side.
8	Q	I see.
9	A	Didn't raise it with me at all, and that was my
10		purpose in talking to him. Now, I have to say the
11		(V6)- incident, I don't recall any talk of it in
12		our immediate community and that wasn't far from
13		where I lived at the time.
14	Q	Okay. We've heard some mention of it being
15		described as a serial rapist on the loose in the
16		city with heightened awareness of people. Do you
17		have any recollection of that?
18	А	I don't recall that, and I'm quite sure that if
19		that had come to my attention, I would remember
20		it.
21	Q	At the time you defended David Milgaard, did you
22		have any knowledge of unsolved rapes or assaults
23		in the two or three months prior to her death in
24		Saskatoon?
25	A	No, I didn't.
	ñ	

1	Q	Did you have any knowledge or information that the
2		police, both the Saskatoon City Police and the
3		RCMP who were assisting them, had, during the
4		initial part of the investigation, suspected that
5		the unknown rapist may have been the perpetrator
6		of Gail Miller?
7	A	No. You've directed my attention in materials to
8		comments in some of the reports and I certainly
9		did not have any indication of that.
10	Q	If you had been aware just generally that one of
11		the initial theories of the police was that this
12		unknown rapist may have been the murderer of Gail
13		Miller, is that something as defence counsel you
14		would have done something with?
15	A	Yes, I'm sure I would have asked Mr. Caldwell
16		about it or, you know, somebody in his position.
17	Q	If we can call up 065399, this is an RCMP report
18		of March 20th, 1969, and just a bit of background.
19		This report, although prepared in March of 1969,
20		the evidence we've heard is that it was not on the
21		Saskatoon City Police files, nor was it on Mr.
22		Caldwell's file, and in fact I think post
23		conviction it was located in 1993, and you've had
24		a chance to read through these RCMP reports; is
25		that correct?
		1

1 A Yes.

Α

If we can just go to the page 065401, please, and I think the evidence we heard from, in particular, Corporal Rasmussen, as he then was, of the RCMP, who was involved, what he testified to was that the RCMP provided assistance to the city police for part of the investigation and these reports were reports to his superiors and basically reflected what they had learned from the Saskatoon City Police, or that had been part of the Saskatoon City Police investigation as opposed to being reports of an RCMP investigation, okay?

Q And with that, paragraph 10, this report says, it talks about the two rapes and one attempted rape:

"In each case the attacker forced the girls down an alley at knife point where he forced them to undress before committing the offence. In the attempted rape, the attacker was scared off by the approach of car headlights.

One of the victims claims that she can still identify her attacker while the other two are only able to give a brief description of him. In view of the

1		similar methods used in committing these
2		offences, there is a good possibility
3		that they were all committed by the same
4		individual and this fact is not being
5		overlooked during this investigation."
6		Again, would that type of information be of
7		assistance to you in your defence of Mr.
8		Milgaard?
9	А	Yes. I wasn't aware of the contents of this
10		report until you showed it to me.
11	Q	And so I guess the actually, let me go to
12		another report here and then I'll ask you some
13		questions, 250597, and next page, this is a May
14		7th, '69 report of Corporal Rasmussen. If you
15		could go to 250603, the bottom:
16		"It is mentioned during the late fall of
17		1968 the local police department had
18		reports of two rapes and one attempted
19		rape. These investigations were
20		conducted by the City Police with
21		negative results. Persons involved were
22		as follows."
23		And then those are the three rapes, (V1)-,
24		(V2) and (V3)
25		"In these three instances the M.O. was
	ii	<b></b>

25

similar in that the male approached his victim from the rear, covered their mouth with his hand and pointed a knife into their back, forcing them down the The descriptions of the assailant lane. given by all three were very similar and it appeared that the same person was involved. The assailant would force his victim to undress at knife point and always managed to stay in the shadows or behind them in order that his identity would not be detected. He would then have the victim lie on her coat at which time intercourse would take place. the (V3)---- case, the assailant was scared away as a result of lights of a vehicle approaching down the lane." And then scroll down, it then goes on to talk about they had some lab reports or some physical evidence with respect to the (V1)- rape and they

about they had some lab reports or some physical evidence with respect to the (V1)- rape and they actually did a check of the panties and agglutinogens of type A were found on the blue panties and plaid jacket. In other words, I think from the test the perpetrator of the (V1)-rape appeared to be an A secretor.

1		And then again the paragraph,
2		scroll down:
3		"As a result of the foregoing, it is
4		felt there is a strong possibility the
5		three rapes and the murder are directly
6		connected. In view of this, extensive
7		interrogation was conducted with
8		(V2) with negative results."
9		And etcetera.
10		If that I'll just check, I
11		don't think we need to go you've had a chance
12		to read each of the statements from (V1)-,
13		(V2) and (V3)?
14	А	Yes, I did.
15	Q	And we've been through them, and in particular how
16		they describe the attacks.
17	А	Yes.
18	Q	You recall that, about being undressed and the
19		back alleys referred to in these reports?
20	А	Yes. I think this RCMP report that you've read
21		generally summarizes the similarities.
22	Q	Can you tell us, Mr. Tallis, what you would have
23		done if you would have been provided with this
24		information?
25	Α	Well, after I read this material over, I felt that $\P$

this would form the evidentiary foundation for the admission of this type of evidence to demonstrate or at least support David's position that he didn't do it. First of all, I do not think there would have been any dispute over the fact that David was not in the city at material times when these sexual assaults took place and, as I understood the law at that time, and I think it still is the law, if "A" is charged with murder, it is open to him to demonstrate that it was, in fact, or was likely committed by another person.

In this case, I'm sure I would have felt that there was a very compelling basis on which to admit the testimony even if the defence had to call it. Naturally it would have been better if one could persuade the prosecution to call it, but if not, then one would seek to adduce it as part of the defence, and if there was an argument over its admissibility, that, I presume, would have been conducted in the absence of the jury, and in order to determine the issue it may well be; indeed, I think it would have been prudent to call these ladies as witnesses, but at the end of the day I think that a strong and persuasive argument could be made that this was

relevant and probative evidence with respect to the issue of whether or not the crime was committed by some other person, albeit unidentified.

I think the RCMP report
summarizes the significant similarities that
attracted the attention of experienced
investigating officers and I don't think that I
can really usefully add much more than by
referring to that. I guess the more I reflect on
it, the more I feel that this is very compelling
evidence, pointing to the conclusion that a third
person, albeit unidentifiable by name, committed
this crime that was in issue.

- And is the information on these assaults, is that the type of information that you contemplated receiving when you made your requests of the Crown in the summer of 1969?
- This is -- this evidence I think is much more compelling in terms of admissibility than even some of the previous instances that you mentioned. Not that one would avoid including them in the materials submitted, the testimony submitted on a voir dire, and of course in my view this is the type of evidence, or testimony, that points to the

1		innocence, or potential innocence of an accused
2		person and certainly is information that I had in
3		mind one would receive under the principles, for
4		example, articulated in Dallison, in the Dallison
5		case and other English cases that I thought were
6		respectable authority at that time.
7	Q	Would you have, and again I appreciate I'm asking
8		you to look back with new information and
9		speculate a bit, but would would the fact that
10		the police, as you mentioned, seem to connect the
11		rapes to the murder, at least at the initial part
12		of the investigation, would you try and elicit
13		that evidence from the officers?
14	А	Well, in terms of the admissibility, I would
15		certainly try to.
16	Q	Subject to admissibility?
17	A	Whether I would be allowed to do that, but I know
18		that Corporal Rasmussen and, I think it's Staff
19		Sergeant Edmondson, were very experienced RCMP
20		investigators.
21	Q	If we could go to 004102, this is an April 15th,
22		1969 police report, and this relates to the Gail
23		Miller murder investigation. Actually, if we can
24		go to the top, it says:
25		"Regarding this file, on April 7th, I
		4

1 called at 210 Ave. N. So., the home of 2 Miss (V1)-'s aunt ..." 3 And (V1) --- (V1) - was the very first rape victim: "To show her some pictures ... and was 4 5 transported to the Police station. the Police station Miss (V1) - was shown 6 a group of 19 photos - snapshots of 8 various people picked at random. 9 Amongst these photos was included one of 10 one David Milgaarde (this last photo was 11 obtained from D/Sgt. R. Mackie). 12 (V1) - looked at these photos which were 13 all placed on the desk at one time, and 14 immediately picked out the photo of 15 David Milgaarde and one other male 16 person whos identity at this time is not 17 known to me. She stated that she had 18 definitely seen both these persons 19 around before somewhere however couldn't 20 remember where or when. She could not 21 identify any of these persons as the one 22 who may have raped her." 23 And etcetera. Would this information, coupled 24 with the other information, have been of 25 assistance to you, Mr. Tallis?

1	A	Well, that's the type of information I would have
2		contemplated receiving.
3	Q	Again, 105520, this is a February 27th, 1969
4		report by Identification Officer Penkala, and this
5		is February 27th, and this was on the Gail Miller
6		file and it's talking about the items related to
7		the murder and says:
8		"The similarity of our departments
9		occurrence numbers 10173 and 10910"
10		Both 68,
11		" complaints of rape, with this murder
12		investigation, lists the following items
13		which are reported missing, identifiable
14		and could be of evidential value."
15		And those are the $(V1)$ - and $(V2)$ rapes. And
16		then the next page, it goes on to list some
17		information from those rapes.
18		And then as well 009298. This
19		is a letter from Mr. Penkala to the Crime Index.
20		If we can go to the next page, actually go to
21		009299, this is his report about the murder on
22		February 5. And go to the next page. It says,
23		'Our Department has two unsolved cases dating
24		back into October and November' call that out,
25		please 'of 1968 which involve complaints of

1 In both these cases the victim was rape. 2 attacked from behind while walking in the late 3 evening, forced into a lane and, under threat with a knife, made to undress and submit to 4 5 intercourse. The victims were always threatened and forbidden to see the attacker who, after the 6 attack, carried away some of the victim's 8 In these cases, the attacker allowed clothing. 9 the victims to replace some of the clothing, 10 usually the outer garment or coat.' Would this information have 11 12 been of assistance to you, Mr. Tallis, in the 13 defence of Mr. Milgaard?

A Yes, well, my earlier comments about the RCMP report apply with equal force to this.

14

15

16

17

18

19

20

21

22

23

24

25

- Q And would you -- is this the type of information you contemplated receiving when you made your request to the Crown?
- A Yes, this is very material information.
- I now want to turn to the (V5)-- (V5)--- matter,

  261590. And this is February 21, 1970, three

  weeks after Mr. Milgaard has been convicted, and

  this is a rape that occurs around Avenue V and

  20th Street. And, again, you have had a chance to

  review this information, Mr. Tallis?

1	A	Yes.
2	Q	Can you tell us and, again, I guess I have to
3		ask you the question; presumably, if you would
4		have known about the other rapes prior to the
5		trial of Mr. Milgaard, there might have been a
6		different result. If we go to let's take the
7		situation where you do not know of the other
8		rapes, the situation that existed, and that after
9		Mr. Milgaard is convicted actually, let me
10		rephrase that. After Mr. Milgaard was convicted
11		on January 31, 1970, would you have still been
12		alert to other information that might assist you
13		in his appeal or in furthering his position?
14	А	Yes.
15	Q	And can you tell us what you might have done if
16		you had been made aware of this information about
17		the $(V5)$ $(V5)$ rape in the month after the
18		conviction?
19	А	Well if this particular rape and the others that
20		hadn't been brought to my attention were brought
21		to my attention, that would make an even more
22		compelling argument for admission of this type of
23		evidence on the appeal, and I think that we are
24		now talking about an application to admit fresh
25		evidence on the appeal. But I think that this $\P$

1		particular incident strengthens the argument that
2		the evidence of these sexual assaults that we've
3		been talking about, the three plus this one, we'll
4		call them the four, is even more compelling when
5		we consider admitting, an application to admit
6		that evidence to show that the crime was or was
7		likely to have been committed by a third person,
8		albeit unidentified. It is particularly
9		significant in this case that there could be no
10		suggestion that David Milgaard was in Saskatoon at
11		the time of the $(V5)$ $(V5)$ rape.
12	Q	So can you tell us what again, post-conviction,
13		if you became aware of the $(V5)$ $(V5)$ rape,
14		and let's say at that time you also became aware
15		of the previous three, can you tell us what you
16		would have done?
17	A	Well I would have launched an application to
18		adduce fresh evidence on the hearing of the
19		appeal
20	Q	Okay.
21	A	and endeavoured to get affidavits from the
22		people involved, and if they were unwilling to
23		swear affidavits, then of course I would ask to
24		have them called as witnesses either before a
25		Commissioner appointed by the Court or before The
	ì	

Court.

The usual practice through the years in Saskatchewan has been for the witnesses to be examined before the Court of Appeal as distinct from appointing someone to take their evidence on commission.

Now I should also say that I think, in this type of case, that given the information that you have provided to me I would probably have approached Mr. Kujawa, if he was going to be handling the appeal, and asked to have him verify the information that I have obtained --had obtained. I know it was veri -- would be verifiable, because he would have to go to the police to get confirmation of it, and invite him to consider whether or not he would agree to a new trial being ordered on the basis of that information.

- And, based on your prior dealings with Mr. Kujawa, had you -- again, not specifically like this -- but was that the type of thing you had done in the past with him?
- $A \qquad \qquad I \quad had.$
- Q And can you tell us how you found him to deal with when you did that?

1	А	Well I found him to be cooperative.
2	Q	This might be an appropriate
3	A	And without going into details of occasions, I
4		have no I would have, at that time, had no
5		doubt that he would have cooperated. He might not
6		have agreed with me after his inquiries and so
7		forth, but by the same token I know that he would
8		have given it anxious consideration.
9	Q	This might be an appropriate time to break, Mr.
10		Commissioner.
11		(Adjourned at 2:28 p.m.)
12		(Reconvened at 2:52 p.m.)
13	B	MR. HODSON:
14	Q	Mr. Tallis, we'll just carry on with, I think
15		where we finished up was the (V5) (V5)
16		matter. Just on the question of Larry Fisher,
17		when did you first learn of a fellow by the name
18		of Larry Fisher?
19	А	I think the, where it was first brought to my
20		attention in a significant way, and maybe really
21		in the first occasion, was when I was in the
22		Supreme Court hearing. It may have been mentioned
23		in passing to me before that during the course of
24		discussions with counsel for Mr. Milgaard before
25		the hearing, but that's the time that I recall my
	1	•

1		attention particularly being drawn to it.
2	Q	And that's in 1992; correct?
3	А	Yes. I think Mr. Brown asked the question of me,
4		and I don't think anybody else did at the time.
5	Q	Okay. I'll just go through, and again just for
6		the purposes of the record, and we've heard
7		evidence on this, that after the (V5) (V5)
8		rape of February 21, 1970 Mr. Fisher had moved to
9		Winnipeg, and I think the evidence before the
10		Commission has been that he was not a suspect in
11		any of the Saskatoon rapes, or there was three
12		rapes and one indecent assault; that on August
13		2nd, 1970 he committed a rape in Winnipeg of
14		(V7) (V7); and then on September 19th, 1970,
15		he committed a rape on (V8) (V8) and he was
16		caught at that time and arrested. And I've
17		provided you with those two statements, you have
18		had a chance to look at the particulars of the two
19		Winnipeg rapes I believe?
20	A	Yes.
21	Q	And then he was in custody, and then on October
22		21st and 22nd, 1970 he confessed to two of the
23		rapes in Saskatoon, namely the (V3) and the
24		(V5) rape.
25	A	Yes.
	Î.	lacklacklack

1	Q	So that's on the record in October 22nd, 1970.
2	А	Yes.
3	Q	December 30th, 1970 the Saskatoon City Police laid
4		four charges here in Saskatoon against Mr. Fisher
5		for the four, $(V1)-$ , $(V2)$ , $(V3)$ ,
6		(V5), the informations were sworn. At that
7		time Mr. Fisher was in custody in Winnipeg and he
8		was not brought back to Court on those charges.
9		He then in May of 1971, through his legal counsel
10		Mr. Greenberg in Winnipeg, pled guilty to the two
11		charges in Winnipeg and received a sentence of I
12		believe 13 years, was sent to Prince Albert
13		Penitentiary. Mr. Greenberg had had
14		correspondence and communication with Mr. Kujawa
15		in 1971, Mr. Greenberg has testified before this
16		Commission that in effect he had a deal for
17		pleading Mr. Fisher out in Saskatchewan with
18		respect to the four charges, and in December of
19		1971 direct indictments were laid in Regina and
20		Mr. Kujawa appeared, Mr. Greenberg appeared, and
21		Mr. Fisher was brought down from Prince Albert to
22		Regina, plead guilty, and got a concurrent
23		sentence. Are you generally familiar with those
24		facts from what the information that I have
25		provided to you?

1	А	Yes, I think that you set it out very succinctly
2		to me, but accurately.
3	Q	Now I want to talk about what and I take it,
4		did you know any of that, did you know any of
5		these goings-on with Mr. Fisher in 1970 or 1971?
6	А	No.
7	Q	Now the Mr. Fisher's confession for the two
8		Saskatoon rapes was October 21st-22nd, 1970, and
9		the appeal I think you argued November 6th, 1970.
10		And you may have already dealt with this when you
11		answered about the other rapes, presumably if you
12		I think you told us that if, before the appeal
13		was argued, you learned of these unsolved rapes,
14		you would have brought a fresh evidence
15		application; fair, correct?
16	А	Yes.
17	Q	If they became solved rapes before the appeal was
18		argued, presumably the same application, but now
19		with a perpetrator?
20	А	Yes.
21	Q	Let's go to the scenario if you learned of this
22		information, either about the rapes themselves
23		and/or the fact that Mr. Fisher had confessed to
24		two of the four of them, let's say you had learned
25		about that after you argued the appeal in early
		Meyer CompuCourt Reporting
17 18 19 20 21 22 23 24	Q A Q	If they became solved rapes before the appeal was argued, presumably the same application, but now with a perpetrator?  Yes.  Let's go to the scenario if you learned of this information, either about the rapes themselves and/or the fact that Mr. Fisher had confessed to two of the four of them, let's say you had learned about that after you argued the appeal in early

1 November 1970 but before judgement was rendered by 2 The Court, which was January 5 of 1971; can you 3 tell us what you would have done if you became aware of that information? 4 5 Α I've reflected on it in the light of your request, and I'm quite satisfied that the procedure I would 6 have followed would have been to contact Mr. Kujawa and the Registrar of The Court to indicate 8 9 that I wished to make an application in the light 10 of new information that had been brought to my Since judgement had not been delivered 11 attention. 12 it would have been open to me to ask for the delay 13 of delivery of judgement. I did not know when the 14 judgement would have been -- would have come down, 15 or was going to come down, but since the matter 16 had not been disposed of and no formal judgement 17 roll issued it is, of course, open to counsel to 18 apply for a rehearing. And on such a rehearing 19 usually you, if a new matter of that nature comes 20 to light, the opportunity to get a new hearing, I 21 think, would be greater, that is a rehearing. 22 In this case I'm sure, if it had 23 been brought to my attention in the way in which

outlined to Mr. Kujawa the nature of the

you have mentioned it, I would clearly have

24

25

1		application that I was bringing, with details, and
2		of course, quite apart from preparation of the
3		relevant material in affidavit form or otherwise,
4		I would have asked him, I think, to verify what I
5		don't think would be disputed facts as far as the
6		nature of these assaults and the, by that time,
7		the perpetrator of them, and invite him to
8		consider his position and let me know while I was
9		getting things ready.
10	Q	Based upon your dealings with Mr. Kujawa, are you
11		able to tell us what you think he might have done
12		in that scenario?
13	A	I know that he would have given it careful
14		consideration, based on my previous professional
15		dealings with him.
16	Q	Can
17	А	And what I said to you earlier in that connection
18		applies with equal force to this scenario.
19		COMMISSIONER MacCALLUM: Mr. Hodson, I
20		missed something, I'm sorry; that you gave two
21		dates, October 21-22, 1970, that was what?
22		MR. HODSON: That was the dates that Larry
23		Fisher confessed to the (V3) and (V5)
24		assaults. He confessed on the 21st in Winnipeg
25		and on the 22nd to the statement that he provided
		Mayor CompaniCount Paracities

to Mr. Karst.

COMMISSIONER MacCALLUM: Thanks.

## BY MR. HODSON:

Α

Let's now go to the scenario where it's after

January 5, 1971, after the appeal has been

dismissed by the Saskatchewan Court of Appeal, but

the appeal to the Supreme Court, or the

application for leave, is still alive, and again,

you became aware of the, either the rapes

themselves and/or the fact that Larry Fisher had

confessed to two of them. Would the same apply,

would you do the same thing there, but with

respect to an application to the Supreme Court?

Yes. Assuming that I was acting on it, I

certainly would have, and if something like that

had come to my attention I would have passed it on

to David and his advisors.

I know that I was very conscious of a case that I recall by the name of *The Queen versus Horsburgh*. I'm not sure of the exact year of it, but that was a case in which the Supreme Court had ruled that the evidence of, in that case, recanting young people was properly admissible as fresh evidence. This recantation had arisen after the process through the courts,

1		and I think the same principle would probably be
2		applied with respect to this type of evidence, in
3		other words it was fresh evidence, and
4		particularly the Winnipeg cases would, in my
5		argument, add strength to that type of
6		application.
7	Q	So in a case where, let's use the example where
8		Mr. Milgaard's appeals are exhausted, in other
9		words after his application for leave to appeal to
10		the Supreme Court; is that the horseman (ph)
11		situation you are talking about?
12	А	No, no, no.
13	Q	No? So
14	А	It's a question of the admissibility of evidence
15		on the appeal.
16	Q	Oh, okay.
17	Α	In this case that would be an additional ground of
18		appeal on which leave would be sought.
19	Q	If we go to the scenario and, again, I
20		appreciate that you did not act for Mr. Milgaard
21		at the Supreme Court but again, if you were
22		acting for him at the time that all of his appeals
23		had expired, let's go to 1971, and you had been
24		made aware of either the rapes themselves and/or
25		the fact that Mr. Fisher had either confessed to
		Meyer CompuCourt Reporting ————————————————————————————————————

1		them or been convicted of them; can you tell us
2		what you would have done?
3	A	I really haven't, you know, had to give that
4		mature consideration, but I know that I would
5		certainly have pursued it both procedurally and
6		substantively. I cannot tell you, at this stage,
7		how I would have tried to get it back before The
8		Court.
9	Q	But would you have gone to Mr. Kujawa or Mr.
10		Caldwell?
11	А	Oh yes, I mean that's a given, I would have
12		certainly gone to him and invited some sort of a
13		joint approach. But, quite apart from that, I
14		would certainly have looked into whether or not
15		one could renew the application in some way, but I
16		have to say that I haven't briefed that at any
17		time in my career, so I better leave
18	Q	Okay.
19	А	matters of that nature to somebody who has.
20		COMMISSIONER MacCALLUM: This is you are
21		speaking of when leave was denied?
22		MR. HODSON: Yes. After that.
23		COMMISSIONER MacCALLUM: Oh yeah.
24		BY MR. HODSON:
25	Q	And I appreciate that maybe I'm asking you to

1 speculate on a situation where you, in fact, were 2 not even engaged, --3 Α Yeah. 4 -- but were you aware or are you aware, Mr. 0 5 Tallis, or let me tell you that what we have heard in this Inquiry, of allegations that have been 6 made by David Milgaard and his mother and his lawyers, that Serge Kujawa, Mr. Caldwell, and 8 9 others connected Larry Fisher as the killer of 10 Gail Miller at a time, perhaps October 1970, and before Mr. Milgaard's legal avenues had been 11 12 exhausted, and the allegation is that they 13 connected Mr. Fisher as the killer and 14 deliberately conspired to withhold this 15 information from you and from others; do you have 16 any knowledge or information to support or refute 17 that allegation? 18 Α I simply have no knowledge of what that is based 19 on. 20 No, and I appreciate that, and I'm just asking 21 That allegation was made, and I'll go to you. 22 some documents a bit later; is there anything, 23 when you look back in your dealings with Mr. 24 Kujawa or Mr. Caldwell or others, that would 25 either support or refute the suggestion that they

knew Larry Fisher was the real killer of Gail

1

2		Miller and deliberately conspired to withhold that
3		information from you?
4	A	Well, I can think of nothing in my dealings with
5		them that would suggest or point to them
6		deliberately or conspiring I guess conspiring
7		involves deliberation conspiring to withhold
8		that information from me or
9	Q	Based upon your dealings with Mr. Caldwell and Mr.
10		Kujawa, would you expect that if they had
11		information at the time before Mr. Milgaard's
12		appeals had expired that suggested David Milgaard
13		was not the guilty party and that Larry Fisher
14		was, that they would advise you of that?
15	Α	Yes, I certainly would never have suspected
16		anything like that, because I knew each one of
17		them to be a person of high personal and
18		professional integrity.
19	Q	I just want to ask you a couple questions about,
20		we've heard some evidence about the practice and
21		procedures back in 1970 and '71 regarding direct
22		indictments, and we heard from Mr. Greenberg who
23		was Larry Fisher's lawyer. But if we can go back
24		to 1971, Mr. Fisher plead guilty in Manitoba, was
25		sentenced, went to Prince Albert, and then made an
		1

1		arrangement to plead guilty on the four
2		Saskatchewan charges, and I think the evidence of
3		Mr. Greenberg was to the effect that either he
4		requested it or somehow it came up to do it by
5		direct indictment, and one of the reasons would be
6		to avoid a preliminary hearing, committal, and a
7		couple of Court appearances. Do you recall
8		whether, at that time, arranging to have a direct
9		indictment to plead out to an offence; was that
10		something that happened from time to time, was
11		that unusual, or can you comment on that?
12	А	I don't recall anything specific on that, but
13		where you were bringing somebody in from another
14		province to plead out on something, I don't think
15		that would be unusual. Usually it would be done
16		to facilitate matters, as you have outlined, but
17		to sort of tell you whether or not there was any
18		policy laid down on that, I have no recollection
19		of anything like that. Usually, things like that
20		were handled as a matter of discussion between
21		counsel acting for the accused person and counsel,
22		like whoever was handling the prosecution file.
23	Q	We have also and, again, the direct indictment
24		that was filed in this case was in Regina, the
25		offences took place in Saskatoon, and there has

Α

been some evidence or some documents suggesting that Mr. Fisher -- that it may have been for convenience, and that Mr. Fisher, or that prisoners from Prince Albert may have been transported to the Regina Court as opposed to the Saskatoon Court on a more frequent basis. Do you have any knowledge of the practice, back in 1971, regarding prisoners from the penitentiary appearing in Regina courts versus Saskatoon courts?

Not specifically, but I can tell you that in those years -- and I think that's, it's, the practice still prevails -- criminal sentence -- criminal appeals, excluding say regulatory offences, are only heard in Regina.

When I was a member of the bar, there was pressure to have appeals heard here in Saskatoon, and while I was in practice here the local bar persuaded the, I think the Court of Appeal and probably government officials, but particularly the Court of Appeal, that it was desirable to have The Court sit here. The result of those discussions ended up with The Court sitting here on civil appeals, as it still does, but criminal appeals were not heard here. Because

the feeling was that the prisoners were brought

20

21

22

23

24

25

Α

from Prince Albert to Regina, and I don't know whether it was because of facilities, better facilities there for handling a number of prisoners that would come in on, often on sentence appeals but also on conviction appeals. So, in any event, I can tell you, without any reservations, that civil appeals were heard here as a result of those discussions, but criminal appeals continued to be heard in Regina, and as far as I know they still continue to be heard there to the exclusion of Saskatoon. I think I've made it clear to you --Yes. -- that there might be regulatory matters that come before The Court here, but even the summary conviction appeals under the Criminal Code under points of law, and so forth, go before The Court in Regina. It's my understanding that in those cases of either criminal conviction appeals, or criminal sentence appeals, that an accused in custody would generally be in attendance at the appeal? They are -- the Court, so far as I know, has

1		to be there in person. If they signify that they
2		do not wish to attend then usually their that
3		request is granted. But the usual practice has
4		been, over a long period of years, for the accused
5		to be there as of right, that is the accused or
6		Appellant. I'm talking about the Court of Appeal
7		on criminal matters, but I can't speak with
8		respect to other matters.
9	Q	Okay. So as far as the suggestion, and I think it
10		is in one of the RCMP reports that we have seen,
11		that in 1971, that there were regular
12		transportation by air of prisoners from the Prince
13		Albert Penitentiary to the Regina courts to deal
14		with matters, versus Saskatoon; is that would
15		you agree with that, is that
16	A	That, that, I think that's an accurate statement.
17		I recall the odd time when
18		prisoners enjoyed having the ride down by plane
19		from Prince Albert, would come in and then abandon
20		their appeal at the last minute, smile somewhat
21		graciously.
22	Q	Okay. If we can go to 032805 and go to page
23		032819, and here is the allegation that I had
24		referred to earlier, at least one of them. It
25		says:
		4 1

Α

"It is alleged that Mr. ... Kujawa sought a direct indictment against Larry Fisher and prosecuted Fisher in Regina to avoid publicity and thereby continue the cover-up of the miscarriage of justice against Milgaard."

And if I haven't, didn't fairly summarize that before, again, do you have anything in addition to what you have already said to add in response to that suggestion? Presumably, you are one of the people that he was seeking to avoid publicity of this matter from.

No, I can't add anything to what I've already told you.

If we can scroll down, there was also an allegation made -- scroll down further right to the bottom of the page -- actually, go to the full page. That's good there, just that part. This is -- what I'm reading from is an August 15th report of the Alberta Justice based on allegations of criminal offences that were made on behalf of the Milgaard group against various officials, and one of them, it is alleged that Serge Kujawa, then the director of public prosecutions for Saskatchewan, K. Lysyk and R. Romanow connected

the Milgaard file with the Fisher file and knew that there was a miscarriage of justice, and I think this relates to an allegation that at the time Mr. Kujawa was working on the appeal that you had filed and you had argued against him that he also had the Fisher files at the same time and that he in fact had connected Larry Fisher as the culprit who committed the Gail Miller murder, but took steps to deliberately cover that up. Is there anything in your dealings with Mr. Kujawa during the appeal that suggested to you that he might have been aware of Larry Fisher as the killer of Gail Miller and that he took any steps to cover that up?

A None whatsoever.

Q

The good news is, Mr. Tallis, I'm on my last binder.

I now want to go to talk about, move into the 1980s and your dealings with subsequent counsel for David Milgaard, and the first was Gary Young and we've talked a bit about him and I think you've told us that he contacted you and that you made arrangements, or agreed to have your file from your former law firm made available for him to look at; is that correct?

A	Yes. My attitude was that it should be made
	available to him. I didn't know what was there at
	the time when I was talking to him, but I had
	known him for many years and I knew his colleagues
	and partners quite well and I had no hesitation
	in, number one, talking to him, and number two,
	indicating that, to make available to him what
	there was.

А

And do you have a recollection of what you would have talked to him about? Did you talk about any of the details?

I don't think we went into anything much in the way of details because that wasn't the purpose of the discussion, although I think he -- I think he raised with me what I thought, whether there was any possibility of, or prospects of having the matter reopened one way or the other, and while this is just something very vague in my mind, it was a theme that sort of ran through, I think, some of my thinking. I thought that the history of these re-openings or references indicated that there was an uphill struggle for someone in that position, and I'm sure I referred to likely cases such as Truscott, Latta, and there may have been another one, in particular I think I mentioned the

Horsburgh case because that dealt with the

1

25

		-
2		situation of where witnesses recanted and whether
3		or not recantations might form the basis for a
4		reopening. Now, this is just something very
5		general and something that I have a very vague
6		recollection.
7		Now, if Mr. Young were to say,
8		well, that I don't think that I did talk to him
9		about that, I certainly couldn't quarrel with it,
10		but I'm trying to give you my best recollection,
11		and my best recollection of course is just very
12		vague.
13	Q	And at that time, Mr. Tallis, again I think this
14		is the early 1980s, are you able to tell us what
15		and maybe it's not limited to the 1980s, it
16		might have even been in the '70s when you were
17		done the case as far as an area that might be
18		pursued to have the case reopened, did you have
19		any thoughts as to what might be fertile ground
20		for someone to pursue?
21	А	The fact that I have the Horsburgh case in my mind
22		would indicate I certainly would never have ruled
23		out witnesses recanting.
24	Q	Okay. And can you think of anything else that
	ii	

might have been --

1	А	I can't think of anything else that we might have
2		discussed, but it may well be that there were
3		other things mentioned in passing. This was all
4		by telephone and I was living in Yellowknife at
5		the time, so it's a good many years ago.
6	Q	If now, I think we heard from Mr. Young that he
7		acted for about four months and then Mr. Merchant

A Yes.

Α

acted?

8

9

10

11

12

14

15

16

17

18

19

20

21

22

23

24

25

Q And you had some dealings with Tony Merchant as well did you?

Yes. Mr. Merchant somewhere along the way, and this was when I was still in Yellowknife, phoned me, or either there was a message requesting me to phone him, so I did talk to him briefly on the phone, but I can't recall the gist of that conversation other than the fact that apart from a few other things, he mentioned that he was involved, recently had been retained by I think Mrs. Milgaard and probably David, I'm not sure just how he framed that, but anyway, I certainly became aware of it, and this would likely be in the -- likely be sometime in the fall, late summer of 1981 I believe. I could be wrong on my time frame, but --

		<b>G</b>
1	Q	And
2	А	And then later on after we moved to Regina he was
3		in touch with me and I met with him along the way,
4		he came over to see me and we had a discussion at
5		the time. Not a lengthy one, but I certainly
6		remember him coming.
7	Q	And at that time did you and were you prepared to
8		provide to both Mr. Young and Mr. Merchant much
9		the same information that you provided to this
10		Commission of Inquiry, your recollection of what
11		you did at that time, what David Milgaard had told
12		you, things of that nature?
13	A	Well, I hadn't really had time to reflect on it
14		or, you know, read all the material that you've
15		asked me to read, but I know that I've always
16		emphasized that, you know, the sanctity of
17		solicitor/client privilege, and I don't recall
18		whether Mr. Merchant had any waiver or
19		authorization from David at that time, I just
20		don't recall, but I know that I emphasized to him
21		that I certainly was not in the practice of
22		discussing a client's business or a former
23		client's business in a public forum without some
24		type of waiver. In other words, I took the
25		position that any waiver, or any waiver was
		•

1		something the client decided, not his former or
2		present lawyer.
3	Q	And I think from the documents it would appear
4		that I don't believe David Milgaard had signed a
5		waiver for you, I believe Mr. Merchant indicated
6		that he was prepared to or he did, but I don't
7		believe there was a waiver signed.
8	A	Well, I don't recall. He may have he may have
9		had something of that nature, so I but I did
10		discuss a few details in light of the contents of
11		the Court of Appeal decision, but I indicated to
12		him that to go into it in greater detail, I would
13		certainly have to take some time to reflect on it,
14		and at that time I still had hopes of getting
15		access to what I would call the complete file, or
16		finding it, and in particular, finding my notes
17		and trial brief.
18	Q	Would and again, if you would have been
19		provided with a waiver of privilege signed by
20		David Milgaard, and Mr. Merchant would have asked
21		you to do so, would you have gone through your
22		file for Mr. Merchant and Mr. Milgaard and told
23		them again much of what you've told this
24		Commission of Inquiry?
25	А	Oh, I would have done my very best to do so, $\P$

1 and -- but bearing it mind it would take a great 2 deal of time to review everything, but 3 unfortunately I was never able to locate the file 4 or any of my notes or anything like that and that 5 still hampers me to this day. 6 But putting --Q You have managed to dig up things that I never had Α 8 access to. 9 As far as the discussions between you and David 10 Milgaard, and in particular what he told you about 11 the events of January 30 and 31, 1969, would that 12 have been information that, again assuming a 13 waiver had been signed, that you could have and 14 would have provided to Mr. Young, Mr. Merchant and 15 indeed later Mr. Wolch and Mr. Asper? 16 Certainly I would have talked to them about it, А 17 and if I had had my file, then of course I would 18 have gone over it in great detail in terms of my 19 I'm sure that my handwritten notes had 20 been typed into memoranda and you have one or two 21 examples here that illustrate the way I generally 22 did it. 23 0 Now, let's -- and just as far as Mr. Merchant, I 24 think there was some suggestion somewhere that, 25 where he said or someone reported that you maybe

1 had not given him as much as he might have wanted, 2 and is it your evidence that that would be because 3 he did not have a waiver signed by David Milgaard? That may well be, but I thought that he understood 4 Α 5 very clearly that I was quite prepared to co-operate with him. 6 If we can then go ahead, 153486, I take it at a Q 8 later point you were contacted by either Mr. Wolch 9 and/or Mr. Asper; is that correct? 10 Α Yes. And this is a letter, May 10th, 1989, from Mr. 11 12 Wolch to you, and just sort of read the first 13 part, and: 14 "For the last several years we have been 15 representing David Milgaard in an 16 attempt to have his case reopened. 17 have somewhat stumbled along attempting to find new evidence or issues to 18

19

20

21

22

23

24

25

have somewhat stumbled along attempting to find new evidence or issues to persuade the Department of Justice that David was in fact innocent of the murder of Gail Miller. Up until recently most of what we were able to obtain would amount for the most part to a rearguing

And from that opening paragraph, are you able to

of the case itself."

1		tell us whether this would have been your first
2		contact with Mr. Wolch or might there have been
3		an earlier one?
4	A	What date is this?
5	Q	This is May the 10th go back to the full page.
6		May 10th, 1989.
7	A	I think this is probably the first contact,
8		although I couldn't rule out a phone call that may
9		have been made as a matter of courtesy.
10	Q	Can you tell us generally, as far as dealings with
11		Mr. Wolch and Mr. Asper, what and again, they
12		did in fact provide you with a waiver of
13		solicitor/client privilege, I'll get to that, I
14		don't think there's any issue that that was
15		obtained can you tell us what information you
16		were prepared to provide them and what were you
17		prepared to do for them and what in fact you did
18		do for them and did provide them?
19	A	Well, number one, I know that I met with Mr. Wolch
20		and Mr. Asper on one occasion during which we had
21		a discussion and I know that I met with Mr. Wolch
22		on another occasion, I remember arranging to meet
23		him at my office at the courthouse on, I believe
24		it was a Saturday or Sunday morning when he was
25		going to be in town to deal with matters in
		4

1		relation to it, so we met privately, that is,
2		there wasn't anybody else there, although I think
3		there were other counsel around the building, and
4		I believe he told me he was examining documents or
5		something that had been brought over to the
6		courthouse or anyway, I didn't get the details
7		of that, it wasn't any of my business, but we had
8		our discussion.
9	Q	So how many in-person meetings then would you have
10		had?
11	А	Well, I think I'm quite sure there were at
12		least two, but I stand to be corrected if there
13		were more than that, and of course I should add
14		this, that I recall that on the evening before I
15		was giving testimony in the Supreme Court of
16		Canada, Mr. Wolch did speak to me by phone and
17		came over to my room for a short period of time.
18	Q	And apart from that meeting at the hotel in
19		Ottawa, can you tell us approximately how much
20		time you would have spent with Mr. Wolch and Mr.
21		Asper then in these previous two meetings? Were
22		they lengthy, detailed meetings?
23	Α	You know, I don't actually recall how long they
24		were, but I know the meeting on the Saturday that
25		I had with Mr. Wolch was not a rushed meeting, if
	I	

you know what I mean, and I don't recall any rush 2 on the other one, but --3 0 And do you recall what areas you would have 4 discussed? 5 Α I know that two areas that were of particular importance to Mr. Wolch involved I think areas 6 that the Supreme Court were primarily interested in and that is, number one, what was the 8 9 background to him not testifying, why did he not 10 testify, and that of course involved whether or 11 not certain advice had been given to him. 12 other significant matter that I recall being 13 raised was whether or not he ever admitted to me 14 that he committed the crime, and so those areas 15 were canvassed, plus some other details, because I 16 know that we discussed them at some length, but I 17 can't really tell you how long at this time. 18 And again, on the decision to testify, I mean, Q 19 would it be fair to say that -- or try and compare 20 what you've told us, this Commission, about what 21 went into the decision to advise him not to 22 testify, would you have given him that much 23 information, less or can you tell us what --24 I think we essentially covered that area much in 25 the way that I have here, probably here you've

1		asked me more detail, but certainly we covered it,
2		you know, to the extent it was covered in the
3		Supreme Court of Canada.
4	Q	Would you have advised Mr. Wolch of what David
5		Milgaard had told you about the events of January
6		30 and 31?
7	A	I'm quite sure I did.
8	Q	And the motel room reenactment?
9	A	I think that I did, because I had read over the
10		Court of Appeal decision before he came and
11		reflected on it, but I can't say right at this
12		stage all the details that we discussed. I
13		wasn't, you know, recording the meeting or
14		anything like that.
15	Q	Now, this letter of May 10th talks about the
16		report of Dr. Ferris, indicating that Dr. Ferris'
17		report indicates:
18		" that David would appear to have
19		been innocent of the crime. His
20		conclusions were basically founded on
21		the analysis of the semen found at the
22		scene and David's blood grouping."
23		Do you recall having any discussion with Mr.
24		Wolch or Mr. Asper about this issue?
25	A	I don't, and I don't recall seeing the report that

		. ago <u> </u>
1		they refer to.
2	Q	Do you have a recollection of discussing anything
3		about the position you took at the preliminary
4		hearing and trial about the secretor issue, if I
5		can call it that?
6	А	We may well have, but of course at that time I
7		didn't have any of the materials, so I would
8		certainly be relying on what they had read in the
9		preliminary hearing and at trial if indeed we did
10		get into any discussion of it.
11	Q	Go to 153499, please, and this is October 18th,
12		1989, five or six months later, this is from Mr.
13		Asper, and here he's looking for your files
14		relating to this case if you still have them, it
15		talks about a waiver, and if we go to the next
16		page, please, and here's a waiver, October 16th,
17		1989. I take it that was received by you
18		authorizing you to share whatever information you
19		had?
20	Α	I'm sure it was.
21	Q	Then 153494, this is a December 6th, 1989 letter
22		from you to Mr. Asper, it refers to having spoken
23		to Mr. Wolch about it previously, and you say:
24		"You will appreciate that"
25		Go back to the full page, please.
		4

1		" I do not have any of my old files.
2		However I did ask a former colleague to
3		check and see if the old file is in
4		existence. Since there have been quite
5		a number of changes since I left
6		practise, including a merger, I doubt
7		that the file is still in existence.
8		However, I will let you know as soon as
9		I have some word about it."
10		So it looks like at this time you are of the view
11		that your file is gone; is that fair?
12	А	Yes. I know that I set in motion inquiries and
13		searches on my own
14	Q	And then if we can go to
15	А	quite a bit before that actually, but I never
16		really gave up hope of finding significant
17		portions of it or even all of it until later. I
18		was primarily interested in trying to find my
19		notes and my trial brief which had all the
20		relevant memoranda and so forth, but I turned
21		everything upside down that I had taken with me or
22		stored out at the farm.
23	Q	If we can go to 153506, and this is April 17th,
24		1990, a letter to both Asper and Wolch:
25		"I have pursued inquiries and searches $lacktriangle$

1 with respect to my old files pertaining 2 The only thing that has to this matter. 3 been located is a copy of the preliminary hearing broken down into 4 5 segments. Although you probably have perused a copy of it I am forwarding 6 this material to you in case it is of 8 any assistance. 9 Nothing else has been located 10 and I hold out little prospect of any 11 further portions of the file being in 12 existence." 13 Again, it would appear at this point that you concluded the file was not to be located? 14 15 That's right. Α 16 Now, these segments of the preliminary hearing Q 17 broken down into segments, would that have been 18 your summary notes that we looked at or would it 19 be actually --20 No, no, we're talking about the actual preliminary 21 hearing, and I think it was, when I sent it to 22 them, I think it had already been restored, so to 23 speak. 24 0 If we can go to 153512, this is a letter August 25 15th, 1990, so again a few months later, from Mr.

1 Wolch, I'll just go through parts of it, it says: 2 "I am really not aware as to how 3 informed you are as to the various developments in the David Milgaard case. 4 5 I believe the news media in Saskatchewan have been reporting much of what is 6 happening quite regularly, but suffice 8 it to say there have been a number of 9 starting developments since we were last 10 in communication. Since we last spoke 11 the key witnesses have recanted their 12 evidence and we also believe that we 13 know the identity of the true 14 perpetrator of the crime." 15 As far as following the news media, I think 16 you've told us that you would not have been 17 reading what was in the paper about this case?

No, I didn't follow it, no.

And then he goes on to say:

18

19

20

21

22

23

24

25

Α

"Ronald Dale Wilson was possibly the main Crown witness in the case. We were recently surprised to learn that he had in fact made two separate statements to the police; the first being in March of 1969, and the second in May of 1969.

enclose herein photocopies of these two statements. The statements are obviously substantially different."

25

"As we review the transcripts from the preliminary hearing and the trial we note that but for three or four very general questions at the preliminary hearing, Wilson was never confronted specifically with his earlier statement. We wonder whether you were ever provided with a copy of the earlier statement or whether the trial tactic used with Wilson did not include challenging him on his earlier statement. Mr. Caldwell has apparently told a member of the media that he discharged his duty of disclosure by providing the defence with three or four out of approximately one hundred witness statements. If you were not provided with a copy of Wilson's earlier statement then we would consider this to be a serious non-disclosure."

Do you have any recollection of getting this letter and responding?

1	A	I'm sure I got the letter and I think that I
2		probably phoned Mr. Wolch and told him that, you
3		know, I didn't have my file material or
4		correspondence or anything, that I simply didn't
5		have any recollection of the statement that he was
6		referring to.
7	Q	Okay.
8	А	I could be wrong in that, but I think that I did
9		indicate that to him, and certainly without my
10		file and something like this just landing on my
11		desk, I wouldn't be able to say offhand.
12	Q	Okay. I now want to turn to the Section 690
13		proceedings which you testified at, and I think
14		you initially were contacted, I think you said in
15		an earlier letter that you would have been aware
16		that David Milgaard had applied to the Federal
17		Minister of Justice for, to review his conviction;
18		is that fair?
19	А	Yes.
20	Q	If we can call up 333322. I should point out for
21		counsel, I'm not sure, this may have been a
22		document that we recently received from Federal
23		Justice and I'm not sure if the documents are up
24		on CaseVault yet. If they are not, they are in

the process of being put up, so if counsel are

25

1 trying to find -- I'm not sure if that one falls 2 in that category. No, that's the wrong document. 3 333322. This is an October 23rd, 1989 memorandum 4 of Eugene Williams to the file: 5 "I telephoned Mr. Wolch following my conversation with His Lordship, Mr. ... 6 Tallis to discuss a formal meeting to 8 discuss Mr. Milgaard's trial. Mr. Wolch 9 did not object to me talking to Judge 10 Tallis, counsel to Milgaard at trial and 11 upon appeal." 12 And if we can go to 157030, it refers to a 13 telephone conversation to set up a meeting with 14 Mr. Williams, and I take it at some point that 15 you -- actually, let me just call up 15 -- go to Here's the waiver of 16 page 3, 157032. 17 solicitor/client privilege April 29th, '89 filed 18 with that. And can you confirm, Mr. Tallis, that 19 you would have then followed up and had a meeting 20 with Mr. Williams? 21 Yes, I'm sure I did. Α 22 Q Do you have a recollection of meeting with him? 23 Α Yes, he met with me in Regina. 24 0 Then 157044. 25 Is that part of COMMISSIONER MacCALLUM:

1 030? 2 MR. HODSON: I'm sorry, the last -- yes, it 3 was. 4 BY MR. HODSON: 5 Q This is February 23, 1990, and this is an undertaking conveyed verbally by Mr. Williams and, 6 here, by Mr. MacFarlane. And it is basically an 8 undertaking was provided: 9 "... to receive your responses to 10 questions concerning your former client, David Edgar Milgaard, which you reserved 11 12 for further consideration, on a confidential basis." 13 14 And he goes on to say it can only be used in 15 certain circumstances. Do you recall how that 16 undertaking came about? 17 I think it was one that was offered, or that was Α their standard practice, it wasn't something that 18 19 I solicited. 20 And then scroll down: 21 "Mr. Williams has also undertaken that 22 the information received will not be 23 provided to the applicant, his counsel, 24 or made public in any manner. 25 the Department of Justice will oppose

1		any application for the release of that
2		information."
3		So that's something that came from Federal
4		Justice?
5	А	That's right.
6	Q	And just for the record, Mr. Commissioner, both
7		Mr. Tallis or Mr. Tallis has agreed to waive or
8		relieve Federal Justice from that undertaking, so
9		we do in fact have the interview notes of that.
10		If I can go to 335388. And this is Mr. Williams'
11		memo to file about his meeting with you, and I
12		think you have had an opportunity to review these,
13		Mr. Tallis; is that correct?
14	А	Yes.
15	Q	And in fact, if we can go to 335390, there is a
16		list of questions
17	А	Yes.
18	Q	that they provide. And go to the next page.
19		And I don't think we need to go through the
20		memorandum, I think it's consistent with what you
21		have told us, and I
22	А	Yes.
23	Q	Can you tell us that
24	А	I should just tell you, I don't I have no doubt
25		that I received that, I don't specifically recall
		1

1		it. But the one that I worked from is a later one
2		that you have where he sent a memorandum to
3		Mr. MacFarlane, and that was the one that was sent
4		to me I think at the request of Mr. Wolch, he
5		wrote to Mr or contacted Mr. MacFarlane to
6		make sure that I had a copy prior to meeting with
7		Mr. Wolch.
8	Q	And I think 335386, this is the
9	А	Yes, that's the one that I recall specifically,
10		and I know that I had that and had made some
11		scratch notes and whatnot on it when I met
12		before I met with Mr. Wolch.
13	Q	And so this memo would be accurate as far as what
14		you would have told Mr. Williams?
15	А	Yes. It had to be fleshed out a little, but I
16		certainly discussed it with Mr. Wolch, and
17		actually I think he politely asked me whether or
18		not I minded him looking at it, so I invited him
19		to look over my shoulder as I was sitting at my
20		desk, and I actually had some notes on it that I
21		would call "fleshing out". Because I had had
22		Mr. MacFarlane had asked me whether or not I
23		received it, he knew apparently that Mr. Wolch was
24		going to meet with me, and I told him that I had

25

received a copy of this interoffice memorandum and

1		that I would was glad to have it available for
2		my meeting with Mr. Wolch, and I indicated that
3		since I was likely to be giving evidence
4		ultimately on this, that I would have to flesh it
5		out somewhat.
6	Q	So just on the time frame, this is May 11th, 1990,
7		
8	А	Yes.
9	Q	I think your testimony at the Supreme Court was
10		in March of 1992?
11	A	Yes, okay.
12	Q	This meeting with Mr. Wolch, when would that have
13		been?
14	А	Oh
15	Q	In re would it be closer to the time of your
16		meeting with Mr. Williams or closer to the Supreme
17		Court reference?
18	A	Closer to the Supreme Court. I think that
19		Mr. MacFarlane mailed this out to me as a result
20		of a request from Mr. Wolch. I can I could be
21		wrong about that, but
22	Q	Did
23	A	Mr. Wolch could certainly confirm that, I'm
24		sure.
25	Q	Can I just ask this; your meeting, when
	l	

1		Mr. MacFarlane sent this to you and you were
2		reviewing it, was it to prepare yourself for the
3		giving of evidence at the Supreme Court reference?
4	A	I think that it was
5	Q	And so we know that
6	A	because I thought that there was a copy of the
7		letter that I had received, I don't I can't
8		locate it, but I thought that there was a copy
9		that came to of a letter that Mr. Wolch had
10		written to Mr. MacFarlane asking that he make sure
11		that he sent a copy of the memorandum, or whatever
12		it was, to me so that I would have it when I was
13		meeting with him, that is meeting with Mr. Wolch.
14		But I I'm
15	Q	If we call up 157238, this may answer it, 157238.
16		I think actually the doc. ID might be 157236. Go
17		to page 238. This is a January 6th, 1992 letter
18		from Mr. Wolch to Mr. Williams, this would be a
19		couple of weeks before the Supreme Court reference
20		is going to start, and if you can call that out
21		please. And then received a copy of a letter to
22		you of December 30th, 1991 sorry, let me back
23		up. 3 well, let's finish this letter and then
24		we'll go back. It's referring in this letter:
25		"I wish to avoid any misunderstandings."
	Ĩ	

And then you say:

"I might add that in your letter I do
not quite understand your comment 'other
notes that I had made of our
conversation were not transcribed or
summarized elsewhere'. Does this mean
you have other notes of your interview
and that the notes that are being
forwarded to His Lordship are simply an
edited version of what His Lordship told
you?

We would strongly suggest that
if Justice Tallis approves of the notes
of the interview that you immediately
forward same to us so we can determine
whether or not David Milgaard will
release privilege in a general sense.",
and asks for a copy of the notes. If we can call
up 335402. This is the December 30, 1991 letter
from Mr. Williams to you:

"A copy of my summary that covered a portion of our discussion accompanies this letter. Other notes that I had made of our conversation were not transcribed or summarized elsewhere.

1		If after reviewing the summary,
2		there are clarifications that are
3		necessary, please advise."
4		So it would appear is this what you're does
5		this assist your memory, Mr. Tallis?
6	А	No, I don't specifically recall that particular
7		letter, but I'm sure that I it must have come
8		in, but I think it helps furnish a background to
9		why Mr. MacFarlane mailed me a copy of the
10		interoffice memoranda between him and Mr.
11		Williams.
12	Q	So they go back to 335386. And, again, this is
13		where we started; is it likely that this
14		memorandum of May 11th, 1990, the internal
15		memorandum, is what was sent to you on December
16		30, 1991 by Federal Justice?
17	A	I think that's right.
18	Q	Okay. This is probably an appropriate
19	A	And I
20	Q	Oh, I'm sorry?
21	A	Go ahead. Because that's the memorandum from
22		which I worked when I was talking to Mr. Wolch.
23	Q	Okay. That's probably an appropriate spot to
24		break, and unfortunately I'm not done, but I'm
25		very close, Mr. Tallis. And I think, Mr.
	i .	<b>_</b>

Commissioner, subject to discussions with Mr. Pringle here, that we will resume with Mr. Tallis when we resume on February 20th. next week. COMMISSIONER MacCALLUM: Thank you. (Adjourned at 3:57 p.m.)
